Region of the Great Lakes: Unsettled and cold with rains and possibly snows first part; fair with rising temperature thereafter.

Upper Mississippi and lower Missouri valleys: Generally fair. Moderate.

# WORLD COURT IS VEHICLE FOR WAR ON ADMINISTRATION

NOT ACTUAL ISSUE BUT  
FURNISHES EXCUSE  
FOR ATTACK.

## PARTY RIFT REAL Political Rumpus Raised to Dis- courage Harding in Plans for 1924.

By DAVID LAWRENCE.  
Copyright, 1923, by Janesville Daily  
Gazette.

Washington.—Just why the question of America's joining the world court should become an issue at this particular moment is the biggest puzzle of the hour to the administration itself.

The talk of a break in the ranks of the republican party is not mere talk. It has a basis in fact. The more going on under the surface than can be seen by the naked eye of an observant public. For the truth is the merits of the world court question are not the real issue at all—it is merely the vehicle for the expression of dissenting views by those who are anxious to prevent the renomination of President Harding by the republican national convention.

In the so-called "irreconcilable" element in the American senate are several aspirants for the presidency or hegemony of world-bank candidates. They have not taken kindly to the Daugherty prediction of no opposition to Mr. Harding's renomination. They are not excessively fond of Daugherty, Hughes and Hoover, and from the beginning, have leaned toward the league of nations side of the argument on foreign policy and they are not overjoyed at the prospect of seeing Daugherty, Hughes and Hughes going around the country reflecting the administration viewpoint on so ticklish a political subject as international affairs. Secretary Hughes, who just made a speech at Des Moines on the world court and Secretary Hughes is about to fire an opening gun so to speak, on the problem of the world court in the coming hours of the last session of congress.

Why All the Talk?  
But why all this now, is the question asked on every side. Even if the country were to express a preponderant opinion in favor of the world court, no action could be taken till next December when the senate meets. And even if the republicans have an overwhelming republican sentiment behind it, the tactical move for the administration to make is to wait till next December when the senate meets. And even if the republicans have an overwhelming republican sentiment behind it, the tactical move for the administration to make is to wait till next December when the senate meets.

So the answer to the puzzle is not to be found in the administration's projection of the issue at this moment but in the line of attack taken by the opponents of the world court. They have taken a concrete character on which to invite the Harding administration into the controversial lists. If the president doesn't take up the challenge and let the world court matter slumber till next congress he will take away from his opponents their main hope for publicity at this time. Some of the republicans have told him that and have also pointed out to him that he ought to make only casual references to the world court on his forthcoming western trip. To go up and down the country affirming and reaffirming his stand on the world court, it is contended, would only be a confession of weakness and diversion of the public's attention from the main things Mr. Harding has to say.

Born on the Line.  
The moment Secretary Hughes made his Des Moines speech, Senator Borah was ready with an answering statement. Senator William Johnson is due back from Europe on June 7th and he will have some things to say about the world court.

Senator James Watson of Indiana, a republican, is known to have been somewhat disappointed that the president picked Harry New to be postmaster general, disappointed because he was on the opposite side of the fence in Indiana politics and it looked, therefore, like a well-aimed shot. Others who may not care much about the world court itself are bound to use the discussion as something to pick on politically. That's why the administration is being urged to let the matter drop after Secretary Hughes has said and to do no more about it till the senate meets in December when enough votes can be mustered to dispose of the issue.

This is all predicated on the assumption that the ostensible opponents of the court will let the controversy subside. If they do not, the administration will find the true character of the opposition to be political and some of the friends of the administration are saying it will be the easiest way to demonstrate why American membership in the court is really being fought.

Membership in the world court is not an urgent matter. No question can be submitted to the court unless the two or more interested nations all give their consent. Any nation whether a member of the court or not can submit a question. The only thing the president has asked is that America assume responsibility for payment of the expenses of the court, a relatively trivial sum, and that the United States take her part in electing judges. But judges have been elected without American aid and the next elections take place once every five years so there is nothing urgent in the whole business. Then why all the fuss now, seven months before the next elections take place? The answer could be possibly that about it by the senators. It isn't customary for members of congress to argue about things so far in advance. The real reason is the political rumpus in the republican party which is going on in an effort to wear out the president's determination about 1924. Most of the politicians admit this to be a fact and that's why the moves are being made in the world court.

Is Gold Band—Phone 953. There's Health in Every Drop.

## EXTRAVAGANCE IS CALLED U. S. CURSE

Puellicher Gives Strong Talk  
Here—Holt Heads School  
Association.

Extravagance is the curse of America today, and the one cure for the nation's troubles is a change of thought of the American mind, in which the thought of getting on things for nothing, of taking everything and giving nothing, will be wiped out, declared John H. Puellicher, Milwaukee, president of the American Bankers' association before members of the Rock River Valley Schoolmasters' club at its annual January session at the high school. The talk was given at the high school, and the speaker was well received by the members of the club and the school, and his talk was greeted with lead and continued applause; making Mr. Puellicher who is also president of the Milwaukee branch of the American Bankers' association, an honorary member, and asking him to address them at another session in the future.

Business officials were honored at the business meeting which preceded the talk, by being elected to the two offices of the club. Supt. P. O. Holt was named to the presidency, and Supt. J. M. Dorrans of the vocational school was made secretary. Mr. Holt succeeds Dr. Clark, Beloit college.

A. Muller, a banking student, gave a brief survey of the growth of the educational side of banking. He told of the founding of the American Institute of Banking, how it started with 21 study clubs in some of the largest cities, in 1885 and has grown continually until there are now 53,000 members, 50 per cent of whom are members of study clubs.

"These study clubs were the first break-down of competition," he said. "It was a good sign when they were started, and the clubs from one bank invited those of another to join in order to make banking a better profession."

He told of the difficulty with which bankers attempted to get into the schools to teach banking and economics in a general way. That is still a difficult situation, he said. One of the best methods of bringing down the prejudices and fears of school officials, whose library needed some of the practicality of the banker, is to have a series of public reading before assemblies. These are now available, and according to the interest shown at Friday's session, they will doubtless be used in a number of Rock River valley schools.

**Need for Economics**  
Mr. Puellicher made a plea for the teaching of more economics in the school, as being the most practical of subjects and the knowledge of which can be used to a greater advantage in later life than perhaps any other subject.

"It is your job to teach the children to succeed," he said. "That is what the parent sends the child to school for. Cooperation between bankers and educators should exist everywhere because it will help the bankers to know you people, and help you to get in touch with the real life the banker represents, and it will aid the pupil most of all."

"Look at what is going on in Russia," he said, "that being an example and as a lesson to America? No, we do not even heed what's happening there, and yet the same may occur to our country. It already exists in North Dakota. We will soon have to defend our system of gold standard, and even the Federal Reserve system. We cannot do this unless you train the child in some of these matters."

**ADVERTISED LETTERS**  
Womans' Mission, Albright, Miss M. B. Carney, Mrs. Wreath Duggan, Miss Dorothy Dreller, Mrs. Ida E. Vain, Miss Amy Postlin, Mrs. Edna M. Henry, Mrs. John R. Hall, Mrs. Florence Hickathier, Mrs. James Jordan, Mrs. L. L. Lackey, Mrs. Gertrude McIntyre, Miss M. Ruth Poyntz, Mrs. Vida Pomeroy, Miss Gladys Robinson, Mrs. E. M. Tarnaby, Mrs. Mary E. Tobie, Mrs. Mary Williams, and Miss Helen E. White.

**Business Convention**  
Southern Wisconsin Poultry Association, and Bachelors and Palfers. Men—C. C. Ardway, H. T. Brown, Mr. and Mrs. William Barnes, E. Betts, Jimmie Craig, J. P. Covey, George D. Deibel, H. W. Greene, Orin Hope, T. F. Hesse, Fred Herty, Harry Look, Robert Larson, John M. Leck, George A. Mercer, Charles Meyer, E. Nichols, R. P. Ryan, Ivan Rice, Ed. Schoberle, and L. Ward.

**Package**  
W. C. Cargill, Mrs. James W. Cheeseman, Mr. and Mrs. Joseph W. Dabson, W. A. Leank, H. J. Klinefelter, and Harold Lawton.

**J. J. CUNNINGHAM**, Postmaster.

**CHURCH MISSION TO RUSSIA ABANDONED?**  
BY ASSOCIATED PRESS.  
Chicago.—While no official confirmation has been received by Methodists, Episcopal church officials in Chicago of the reported abandonment of the Methodist mission to the proposed all-Russian congress of the "Living church" in Moscow, they did not doubt the trip to Russia had been called off because of the trial for life, to begin shortly, of Patriarch Tikhon, head of the Russian church.

**Paris**—The French and Belgian government ministers decided on new means of pressure to be applied to Germany if she remains unyielding on the reparations question.

## NEW TYPE SCHOOL DESK IS CALLED "THE JANESVILLE"

Janesville high school will be known throughout the entire country wherever new schools are to be built as a result of the naming of one of the types of chair-desks here "The Janesville." The Northwestern Furniture company, Milwaukee, had the contract for desks of the entire building. When some of the points in the sample presented were found unsatisfactory by members of the school board, a model desk was made by this company embodying all the suggestions of the local board. For this reason the model was named "The Janesville" desk and is put among the regular products of that company. The desk is a pedestal affair and one of the main improvements made was making the pedestal wider and stronger.

**Chicago**—The only way to stabilize the German mark is to "burn them all up," David R. Forgan, Chicago bank president, said.

Janesville's Laurel Turkington, 17, daughter of Booth Turkington, prominent author, died.

## Vivid Story of Passion Play Told by Father Olson

Rock county training school students Friday heard an address by the Rev. Charles Olson, pastor of St. Mary's church, which portrayed the staging of the world's greatest drama given every 10 years in the little village of Oberammergau, located in upper Bavaria. Father Olson witnessed the world famous religious drama in 1910, and made his account real by giving his personal impressions.

The speaker told of how the village got its name and said it meant the valley of the upper Ammer river. In 1523 a great plague swept the country and the people made a vow to God that if they were delivered from the plague that every 10 years they would present a drama representing the death and crucifixion of Christ.

## The Human Machine

If you were the proprietor of a Factory and one of your important machines was out of order, you would not expect to do normal work. Yet in the case of many of you, your Human Machine is out of order and you go on day after day expecting it to carry its full load as usual, without having it repaired or even inspected. Turn over a new leaf at once, realize that your spine, which is the principal part of your Human Machine, should be inspected regularly by a skilled Human Machinist (a Chiropractor), who if he finds any wrong will at once proceed to right the wrong by CHIROPRACTIC SPINAL ADJUSTMENTS. Investigate the principles of this great Health Science.

Dr. Damrow's Milton Office, in charge of a very competent Chiropractor, Dr. H. A. Bobe, is open every day during these hours: 10 to 12 a. m.—2 to 5 p. m.—7 to 8 p. m.

SOCIAL FORECAST  
The social prognosticator foretells the busiest and most interesting week of the spring season for the coming seven days. Sunday starts off the whirl with a musical at the Colonial club given by the well known artist Lillian May Sindahl who has appeared here previously. George McKee and his sister, Mrs. William Barbour will be hosts.

Monday noon a branch of the American association of University Women is to be organized. Much interest has been manifested in this project for as early as Saturday 50 reservations had been made for the luncheon to be held at the Colonial club previous to the meeting. The American Legion is to give the second annual military ball Tuesday night. With elaborate decorations and Joe Kayser's orchestra the party promises to be a brilliant affair.

An address by Mrs. Frederick M. Egan, Madison, will be given to attract many to the Jefferson school T. R. association meeting Tuesday night. Adams P. T. has planned a silvery tea for Wednesday at the residence of Mrs. P. C. Grant, Cornelia street.

The wedding of Miss Catherine Gaffey and Raymond Tiffitt heads the calendar for Wednesday. St. Patrick's church, W. C. P. is to install officers Wednesday night at St. Patrick's hall. Fourth Degree Assembly, Knights of Columbus, will entertain the ladies Thursday night at the annual dinner dance. The W. C. T. U. has its regular meeting Thursday at Baptist church when Temperance in the Schools will be discussed. Junior MacDowell club is scheduled to present an open concert Thursday at Library hall. Pythian Sisters will entertain their chief state officers Friday night.

The first of the community concerts will be given Sunday at the high school auditorium by the MacDowell club.

Silver Tea for Adams P. T.—Invitations for a silver tea for members of the Adams School P. T. Teachers' association, will be sent out Monday. The tea is to be held at the home of Mrs. P. C. Grant, 302 Cornelia street, from 3 to 5 p. m. Wednesday, and will be a benefit for the P. T. association. A program is to be given by Mrs. W. H. McMillen, soprano; Mrs. J. M. Dwyer, pianist; and Mrs. Bruce Stone, violinist. Of the committee for arrangements are Mrs. John R. Nichols, chairman; Mesdames Perry Bolton, R. C. Hartman, A. R. Glancy, C. W. Dwyer, Frank Kiehl, Miss Katherine McManus and Miss Agnes Grant.

At Reclining Dinner—In honor of Miss Catherine Gaffey and Raymond Tiffitt, Delavan, whose marriage is to be an event of the coming week, a dinner party was given Thursday night by the prospective groom's mother, Mrs. Helena Tiffitt at her residence, 1014 Sharon street. Dinner was served at 7 p. m. at two tables and covers laid for 12 guests. The bride couple were presented with many beautiful and useful gifts.

Gordon Schultz Surprised—The birthday of Gordon Schultz, son of Mr. and Mrs. Walter Schultz, was the occasion for a pleasant surprise party Friday night at his home, 118 South Washington street, when 40 boys walked in. The evening was spent in playing Hearts and Rummy. At 10 p. m. a supper was served. The guests list included Clifford Brown, Edward Nelson, Alfred McGill, Frank Pierce, Maynard Atwood, Coda Darcy, Kenneth Comstock and Jack Browning.

Evening Club to Meet—An evening club composed of 12 women will meet Monday night for dinner down town, after which bridge is to be played at the home of Mrs. Ray Fitzgerald, 714 Center street.

Jefferson P. T. to Meet—Jefferson school Parent-Teachers' association will hold an evening meeting at the building Tuesday. Mrs. Frederick Paxson, president of the Parent-Teachers' Council at Madison, will be the speaker of the evening. All who are interested are invited to this meeting.

Son Born—A son was born April 1 at St. Louis City, Ia., to Mr. and Mrs. Charles Garthwright, 924 Benton avenue.

Tenth Birthday Observed—Junior Roy Townsend, 121 Clark street, celebrated his tenth birthday Friday night. A supper was served at 8 p. m., after which games and stunts were in order. Ten boys were guests.

Daughter Born—A daughter was born Thursday at Mercy hospital to Mr. and Mrs. Harry Brandt, 103 South Academy street. She will be called Dawn. Mrs. Brandt was formerly Miss Hattie Luebke, daughter of Mrs. L. M. Luebke.

American Legion Auxiliary Meets—Auxiliary of Richard 251st American Legion will meet at 7:30 Monday night at Janesville Center. The president, Mrs. Louis Amerphol, has just returned from Milwaukee where she attended a meeting of the auxiliary under the state. New members will be taken in.

Mrs. Farnum Entertains—A two table bridge club was entertained Thursday afternoon by Mrs. C. B. Farnum, 326 North Jackson street. Luncheon was served at the Badger cafe at 1 p. m. and each lady had a right. Bridge was played at the Farnum residence and prizes taken by Mrs. William McKee and Miss Mayne Blunk.

Former Resident Marries—Alumnus of the University of Wisconsin, announces the marriage of Miss Ella Schultz, formerly of the editorial staff of the Janesville Gazette to Dr. O. M. Delaney, house surgeon at St. Francis hospital, Wichita, Kan. The couple were graduated from the university in 1920 after which the bride was employed in this city.

Mrs. Beyer Hostess—The K. N. club was entertained Thursday afternoon by Mrs. William Beyer, North Jackson street. Cards were played and prizes taken by Mrs. Paul Lucht and Mrs. Richard Reich. Lunch was served and covers laid for nine.

To Excelsior Springs.—Mr. and Mrs. J. L. Wilcox and Mr. and Mrs. Norman L. Carle will leave the city Sunday for Excelsior Springs, Ark., where they will spend a fortnight.

O. D. S. Club Meets—The O. D. S. club was entertained Thursday night by Miss Beth Stien and Miss Jessie Reid at the home of the former, 109 Holmes street. Sewing and music were diversions and refreshments were served. Miss Bessie Mann will entertain next Thursday night.

Presbyterian Women Have Meet—Thirty women of the Presbyterian Women's society met Friday at the church for the quarterly meeting. Luncheon was served at 1 p. m. by the Community Aid with Mrs. Edna Duthie as chairman. Annual reports were given by officers of the Community Aid, Church Aid Division, Westminster society, Woman's missionary society, and the D. Y. E. which organization makes up the Presbyterian Women's society.

The new officers were welcomed. They are: Mrs. W. C. Graves, president; Miss Emma Scofield, secretary; Mrs. Henry Hanson, treasurer. Miss Grace Belding gave a report of the society's work for the past year. The next meeting will be held June 8 when a picnic is to be held at the home of Mrs. Graves.

G. A. R. Post Entertains W. R. C.—Following the regular business meeting of the G. A. R. post Friday afternoon in East Side hall, the doors were opened to 55 members of the Women's Relief Corps at which time the post entertained in honor of the 35th anniversary of the corps.

L. T. B. Winslow, commander, gave the address. He was followed by J. Schott, a charter member of the post, in behalf of the members, presented Mrs. Elizabeth Tramballe, the only living charter member of the W. R. C. with a beautiful bouquet of flowers. Remarks were made by Department Commander J. F. Carle and others. Mrs. Ida Fox, patriotic instructor, had charge of the singing. Many numbers consisting of recitations and songs by the school children. Mrs. J. B. T. Winslow was presented with a postal card shower in honor of her birthday.

Supper was served at two tables after the program.

Civic Art Discussed—Civic Art was the subject for the Art League program Friday afternoon at Library hall. Mrs. J. P. Bennett read a picture which was illustrated with more than 60 slides showing beautiful monuments and statues in Washington, D. C., and other lands where much attention has been given to civic art.

Mrs. J. T. Hooper gave an article on "The Interesting House," and also told of the activities of the "Antique Collector." Mrs. C. A. Sanborn presided in the absence of the president, Mrs. T. W. Nuzum.

Mrs. Dewey Entertains—Mrs. Howard Dewey, 120 North Jackson street, was hostess Thursday to a two table bridge club at which prizes were taken by Mrs. John Staub and Mrs. J. B. T. Winslow. A card prize was taken by Mr. and Mrs. Earl White. Twelve men and women were guests.

Luncheon for Mrs. Patton—Miss Louise Nowlap, 202 St. Lawrence avenue, gave a 1 o'clock luncheon at the Colonial club Friday. The affair was complimentary to Mrs. Clarence Patton, Omaha, Neb., who left for her home Friday night after a visit with her parents, Dr. and Mrs. J. P. Thorne, South Main street. Covers were laid for 12 and bridge played in the afternoon. Mrs. Raymond Edler and Mrs. C. W. Metcalf took prizes. Mrs. Patton was presented with a gift.

F. A. U. Plans Dance—Regular meeting of Rock lodge No. 736, F. A. U. will be held Tuesday night in the annex of Eagles hall. An old time dance for members and friends will be held after the meeting.

To Rockford for Party—Mesdames John G. Rockford, John M. Whitehead, J. P. Amber and Mrs. F. Sweeney, Chicago, motored to Rockford Thursday for a luncheon and theater party.

See Otis Skinner—Mr. and Mrs. Edward Peterson, Mr. and Mrs. Arthur Granger, Mr. and Mrs. Fred Capelle, Miss Carle and Miss Elizabeth Schickler motored to Rockford, Friday, to see Otis Skinner, star in which Otis Skinner is the star.

Mr. and Mrs. Green Hosts—Mr. and Mrs. Elmer Green, 1000 Sherman avenue, are entertaining a company of young people Saturday night in honor of Miss Colette Sickinger, Monroe, and Miss Alice Heimsticker, Oak Hills, who are guests of Mr. and Mrs. Morris Reed, Sherman avenue.

College Women to Have Luncheon—Reservations have been made for the luncheon to be held Monday at the Colonial club in the interest of the American Association of University Women. Miss Ellen, New York City, sister of the famous playwright, Clyde Fitch, is to be present. She established a branch of the association in one city of every state. Because of the large number of college women residing in Janesville, this city was chosen for Wisconsin.

Sewing Club Entertained—A sewing club was entertained Friday night by Mrs. Sam Mattoner, Chory street. Eight women attended. A three course supper was served at a table decorated with spring flowers.

Pythian Sisters Plan Active Week—Pythian Sisters have three events scheduled for the coming week which will attract many here. In the nature of a card party will be held Tuesday night at the home of Mrs. Ellsworth Lee, 545 North Terrace street. Members and their husbands are invited. The Relief lodge has invited the sisters to that city Thursday night when a class is to be

initiated. Mrs. Mada Neubecker, Grand Chief from Waukesha, is to be a guest of the Relief lodge. Friday night when a class will be initiated. The new regalia is to be used for the first time.

Mrs. Dearborn Hostess—The Friday afternoon bridge club was entertained this week at the home of Mrs. J. B. Dearborn, 108 Cherry street. Cards were played at four tables and prizes taken by Mrs. E. F. Doty and Mrs. C. F. Doty. At the last meeting it was voted not to serve refreshments but to have two prizes. Mrs. Mary Doty will entertain the club next Friday.

Plan for Confirmation Reception—At the regular meeting of St. Peter's Y. P. S. Friday night in the church parlors, it was decided to hold a reception at the June meeting for the confirmation class. Games were played under the direction of the Misses Gladys Peterson and Lorraine Baum. Refreshments were served by Elizabeth and Carl Diehl. There was a large attendance.

K. P. Party Enjoyed—Twenty-five couples enjoyed a social Friday night at Castle hall sponsored by the Knights of Pythias. MacFarland's orchestra played for dancing. Cards were also played. At 11 p. m. a buffet lunch was served with Mrs. Peterson, Mack Gzell and Harry Hunsbusher in charge.

Mrs. McComb Surprised—Mrs. Margaret McComb was guest of honor at a surprise party at her home, 225 Palm street, Friday afternoon in honor of her birthday. An informal social time was enjoyed and a supper served at which covers were laid for 30. Mrs. McComb received many gifts and returns of the day.

To Attend Milwaukee Wedding—Invitations have been received in the city to the wedding of Miss Thelma Walton, daughter of Mr. and Mrs. E. Walton, Milwaukee, and James Salisbury, Milwaukee, Saturday, Apr. 28 at St. Stephen's Episcopal church. Mr. Salisbury is grandson of Arthur C. Sullivan, 410 South Main street, this city. Many from here will attend the wedding.

Mrs. and Mrs. Rutter Hosts—Mr. and Mrs. Bert D. Rutter, 351 South Main street, were hosts to an evening party Friday. Bridge was played at four tables and prizes taken by Mrs. Oscar Dahl, and Mr. and Mrs. J. B. Newell. At midnight a two course supper was served at small tables made attractive with baskets of daffodils.

PERSONALS  
Mr. and Mrs. Herbert Adams, 327 Western avenue, are entertaining their nephew, Marshall Hulbert, and George Stanley, Waldo. Both men are members of the Lawrence College Glee club which sang here Friday night.

Robert P. Ruggs, 512 South Academy street, spending business in Milwaukee, Friday.

Richard O'Brien, Chicago, is the week-end guest of his mother, Mrs. C. A. O'Brien, 800 Benton avenue.

Miss Jennie Julec, librarian of the Janesville Public library, is spending the week-end in Chicago, visiting relatives.

J. B. Dearborn, 108 Cherry street, has gone on his week's business trip through Indiana.

Mrs. Edward Amerphol, 702 Court street, is confined to her home with illness.

Mrs. A. C. Kent, La Vista apartments, Main street, is spending several days in Chicago with her niece, Mrs. Charles Stevens, 52 South Main street, who returned home from a two weeks' visit in Cleveland, O.

Mrs. Ada Higgins, 219 Prospect avenue, is home from Chicago where she spent two weeks with friends.

Mr. and Mrs. John Dwyer, 304 South Main street, have returned from Edgerton where they spent the winter at the Hotel Carlton. They have rented the house at 404 South Main street to Mr. and Mrs. Wolgram but will retain one room. Mr. Wolgram is connected with the Strimpe garage.

Dr. and Mrs. F. E. Earnsworth and Arthur Granger motored home from Milwaukee Thursday in the new car which Dr. Earnsworth has purchased.

DOLLAR GASOLINE—TALK RIDICULOUS, ASSERTS OIL MAN  
(Continued from Page 1.)  
There wouldn't be enough automobiles left in America to warrant our keeping open even one single service station. I would have thought that even a senatorial committee would have credited oil companies with possessing enough business sense not deliberately to wreck their own business.

Too Much Paternalism  
In conclusion, Col. Stewart said that "in the last decade there has been a great growth of paternalism in government, with the establishment of a state or federal bureau for this thing or that thing, with everyone who has a grievance or a hobby rushing to Washington to demand the passage of a federal law, and the establishment of a federal agency to enforce it. Our citizens should remember that the only does governmental supervision of everything and everybody stifle individual initiative, but that every increase of governmental interference, the establishment of every bureau, every regulation of business, necessarily brings with it an increase in taxes, and the building up of a bureaucracy."

Deplores Interference  
"I do not mean to advocate the entirely unrestricted operation of business, either big or little," he said. "I welcome government supervision of industry in so far as it is necessary to prevent all unfair practices, but I deplore that class of interference of which we have had too much, that works harassment to business without serving any good purpose. The farmers and other shippers in the United States are paying the bill for that governmental interference with the railroads."

Dr. McKeever to Meet Teachers Here on May 5th

The cooperation of county superintendents and other educational leaders of Rock and Walworth counties has been enlisted in the interest of a teachers' luncheon, in Janesville, Saturday, May 5, 1923. At the luncheon Dr. McKeever will be the guest of honor and will deliver a lecture on "The Teacher's Welfare." The lecture will be sponsored by the Gazette-Globe Club and the only expense to the teachers will be for the luncheon itself. The affair will be held at the Y. M. C. A.

Dr. McKeever's books, "Training the Boy," "Training the Girl," and "Farm Boys and Girls" are on the Wisconsin teachers' reading circle list. Many of the teachers who will be invited to the luncheon, have read these books and will be interested in hearing the author and meeting him in a social way.

The schedule as definitely arranged thus far is as follows: Sunday, May 6, Elkhorn; May 7, Clinton; May 8, Janesville; May 10, Whitewater. Other places considering plans for one of these institutes are Evansville, Edgerton, Milton and Delavan.

Dr. Swift Obtained by Y. W. for Talks

The educational committee of the Y. W. C. A. decided at a meeting held Friday night to bring Dr. Edith Hale Swift, New York city, here for a series of meetings, May 26 and 27. Dr. Swift is one of the foremost speakers of the country on social morality. She is a lecturer for the American Social Hygiene association, and devotes the greater part of her time to addresses in colleges and universities. She will be on route from St. Paul, Minn., to Ypsilanti, Mich., and it was only through willingness to engage her for Saturday and Sunday, that the local committee was able to secure her services. The schedule of meetings will be announced later.

**AT THE APOLLO.**

A new plan is being inaugurated at the Apollo theater this week, with the showing of “Drums of Fate,” with the week-end vaudeville. The picture

had its opening Friday, and will continue through Sunday night, forming a good two hours’ entertainment.

“Drums of Fate” has a plot somewhat similar to that famous classic, “The Ten Commandments.” Two people, a married couple, are captured and held prisoner for two years, during which time the wife is persuaded to marry another. He returns,

sees her and leaves again for Africa. She had seen him, however, and the timely death of her second husband frees her to search for her first. The climax is spectacular and the scenes in the African jungle are exciting.

Mary Miles Minter is still a popular actress as ever and will be liked for her portrayal in this latest Paramount picture of hers. Others in the cast are Maurice Flynn in the leading masculine

APOLLO THEATRE

TUESDAY, WEDNESDAY and THURSDAY

One of the Most Sensational Pictures of the Season!

Blue Blood and Fighting Blood, a Proud Man’s Law and a Woman’s Love Struggling Against a Brotherhood of Hate in a Drama That Will Clutch Your Emotions with Fingers of Steel!

Marguerite de la Motte as the proud Southern girl who found love when her first and angry mob tried to take the man she had once scorned.

Lloyd Hughes as the Mountain Boy lured from rough cabin to mansion halls only to find a brotherhood of hate.

Frank Keenan as the Fighting Colonel. His own son a prodigal he sought, an heir among the boys of the Kentucky hills.

She Scorned Him! Then Fought for His Life!

She thought he had robbed another man, her sweetheart, of his heritage—and she hated him!

But he loved her! Loved her enough to sacrifice everything to make her happy! Even enough to make the other man worthy of her love—then a strange thing happened.

Thos. H. Ince presents

“Scars of Jealousy”

MORE SENSATIONAL THAN “THE STORM.”

An Ince Play With the Ince Punch Portrayed by FRANK KEENAN, LLOYD HUGHES, and MARGUERITE DE LA MOTTE.

A RAGING FOREST FIRE!—A LYNCHING MOB IN PURSUIT!

A man and a girl trapped in the raging inferno clinging to the edge of a tiny pool of water, barely deep enough to cover them as the flames swept onward! And outside the blazing menace was an angry mob waiting to take his life if he lived. What a setting of a great drama! What a climax to a story of breathless suspense!

Story by Anthony M. Rud—Directed by Lambert Hillier.

This picture has just been released and we are showing it before Chicago or Milwaukee.

PRICES: MATINEES 15c AND 25c; EVENINGS, 15c AND 35c.

NEXT WEDNESDAY Elaine Hammerstein and Conway Tearle in “ONE WEEK OF LOVE.”

line role, George Pawest, Casson Ferguson as the second husband, and Robert Cain as “heavy.”

The new week at the Apollo will be started Monday with the annual recital of dances by the pupils of George Hatch. This offering always calls forth a crowded house and the quality of the entertainment well merits it. A great variety is to be offered and Monday night can be seen dancing, both solo and group, that would be hard to equal. Usual prices are being asked.

On Tuesday will start “Sears of Jealousy,” Thomas H. Ince’s latest production, which was written and directed by Lambert Hillier from the

story by Anthony M. Rud. The story is an exciting tale of an unfamiliar hill people whose fortunes are intertwined, despite their wishes, with a proud family of the old south. The strange hate springs up between these savage “Cajons” and the old southern family. However, this hatred results in the redemption of a wayward son by novel means and in the splitting of a moonshiner’s den from the depth which poverty and illiterate parents had forced upon him.

A forest fire scene with miles of blazing pine trees, the escape of two pursued principals in the story through the blazing tree tops in the watershed of a flaming flame and the fierce fight of a posse against the

flames which have prevented them from carrying out their intention to lynch a young “Cajan,” are exciting sequences.

Noted players have leading parts. (Continued on page 5)

Little girls cannot always play on the sunny side of life. The World has a way of making them grow up. See “ADAM’S RIB.”

of any kind where a charge is made to the public.

GAZETTE PLATFORM FOR 1923.  
Continuous effort to secure for Janesville a mod-  
ern hotel and that this city may take care of  
many conventions as well as the traveling  
public.  
Reclaim the Rock River park in every way a de-  
lightful playground for the people of the city.  
Establishment of free bathing grounds, bathing  
benches and all the necessary arrangements  
for making the park a popular recreation  
place for all people.  
Clean up the hotelkeepers and blind tigers and  
enforce the laws.  
Establishment of a real estate mortgage com-  
pany to make the building of homes more  
easily accomplished.  
Additional room in the post office by building an  
annex.  
Arranging a road building program so that the  
taxpayer and taxpayer will be the greatest  
beneficiary.  
Traffic regulations that will reduce reckless  
driving and the number of deaths from auto  
accidents.  
Build a new and larger and better Y. M. C. A.  
building to care for the constantly increasing  
need by reason of the influx of new residents.

Offices were not established to give support to  
particular men at the public expense. No in-  
dividual wrong is, therefore, done by removal.  
The incumbent became an officer with a view  
to public benefits, and when these require his  
removal they are not to be sacrificed to private  
interest. It is the people and they alone, who  
have a right to complain when a bad officer is  
substituted for a good one. He who is removed  
has the same means of obtaining a living that  
are enjoyed by the millions who never held of-  
fice.  
ANDREW JACKSON.

Buying the Old Home Farm.  
Let us say that we at once disagree with the  
conjectures written so generally in the past few  
days, that the president of the United States has  
purchased the old home farm for the purpose of  
retiring there at the end of his term of service  
and be "far from the maddening crowd's ignoble  
strife." The writers are thoroughly unacquainted  
with a temperamental successful in the operation  
of a daily newspaper. The genuine, copyrighted  
and trade-marked newspaper publisher and editor  
retires only when the horse backs up to the  
door and a few of his friends gather to note  
how natural he looks. If old age brings inability  
to labor the demand for comforts and attention  
increases and no hermit cell is welcome. But the  
purchase of the farm is the natural act of a nor-  
mal person who has memory and pleasant re-  
collections of boyhood.

What is more glorious than the life of the av-  
erage boy on the farm? Nature has written for  
him a Book of Wonders. Its pages are filled  
with fields and forests, of wooded lots and pur-  
ling brooks, of flowers and birds and small animals  
who are his friends and whose habitat and hab-  
its he knows. He may write a page or so at the  
end of the fishing pole or in the excursions here  
and there after some new experiences out of  
doors. It is but natural that the mind of man,  
harassed it may be by the caring cares of public  
life, should go wandering in the silent fields of  
childhood and glean comfort in the picture of  
the barefoot boy wiggling his toes in the soft  
brown dust of the Morrow county roads or press-  
ing them to the short grass carpet of the pasture  
lot. What more natural to that one should like  
to possess a place so sacred to a thousand joys  
and so sanctified and wreathed with remem-  
brance.

The president has lived near enough to his old  
home to note the changes that the years bring  
from day to day and not be shocked when a wide  
interval of time elapses. The dearest and sad-  
dest of all disappointments is to return to the  
boyhood home place after years of absence and  
find that the painting on the walls of memory was  
faded and torn, the pigments had faded and the  
canvas was gashed by pagan hands inspired by  
dearly commercialism. The pond had become a  
mere mud hole and the great white house with the  
green blinds was small and shrunken, like the  
people who walked with faltering footstep totter-  
ing on toward the unkempt cemetery. No less a  
shock is it when that vigorous, indefinable and  
intangible Spirit of Progress has swept away the  
houses, built brick and stone blocks, dismantled  
the sawmill, torn down Pease's old store and  
erected a public library on the corner lot where  
two old cat and dog poma pullaway gave outlet  
to vigorous bodies and stirred sluggish brains to  
action. But the old farm, out and away from the  
village, remains much the same. There may be a  
silo and a new set of stalls for the cattle, but the  
ridge where one could see clear over to Mt.  
Gilead and guess in the haze and smoke that  
perhaps that was Columbus "way off there," will  
welcome the president when he drives out from  
Marion and bring the gratification which Memory  
all garlanded and graced with smiles, alone can  
present as she lifts the curtain of years and  
discloses the gloriously simple pageant of youth.

It is a peculiarity of swan songs that they are  
generally sung in falsetto.  
A Memorial for the Soldiers.  
The proposal that the old high school building  
shall be used for an armory and as a memorial  
building for the soldiers of the city and county  
who have fallen in battle or have given military  
service to the state and nation is meeting with  
genuine favor. Just how in detail it may be car-  
ried out is a matter for later decision as the plans  
are presented and thoroughly discussed. One thing  
was brought out at the meeting held Tuesday  
night. There is no place where the young man,  
or the older one for that matter, who has no  
family, may loaf or sit about or spend his leisure  
time except at a pool room or some kindred place.  
We say "no place" following, meaning no place

where he may feel freedom to enter and to leave  
at no cost. It was shown that a club house for  
men was needed. It will immediately be sug-  
gested that the Y. M. C. A. offers all that is nec-  
essary, but the Y. M. C. A. does not fill the bill  
nor does it appeal to the men we have in mind.  
There is a great opportunity right here to make a  
club room for American Legion members and  
others who want access to a place where a few  
hours may be spent. In making a memorial and  
using a building for the purpose it certainly  
seems much more important than a silent and  
sombre place only occasionally visited.

One of the reasons why there are more people  
available for employment is that the federal gov-  
ernment has reduced the number on the pay-  
rolls by 102,101 in two years.  
Most of Europe thinks the debt they owe us is  
one they can never repay.  
"Passive resistance" in the Ruhr means ditch-  
ing of railroad tracks.  
Henry Ford will receive lots of backing in his  
refusal to be a candidate for president.

Washington.—Probably for the first time in  
history, a business boom is about to be vivisected.  
It is the experience of mankind that business  
booms invariably are followed by periods of de-  
pression. Many economists of the college profes-  
sor type have spent much time in studying past  
economic phenomena and have deduced theories,  
some of which have proved valuable and some  
of which have been exploded by the next boom.  
The United States is just stepping into the  
midst of another business boom and for a num-  
ber of reasons the period is of special impor-  
tance.  
Usually business booms creep up on a nation  
imperceptibly. The presence of the boom is  
scarcely realized until it is present and in full  
swing. People are too busy to do much studying  
at such times and, therefore, the boom proceeds  
feverishly to its ultimate collapse. During the  
slack period of depression which follows there is  
ample time to study the phenomenon but by that  
time it has passed.  
Three months after the armistice, a business  
boom started in the United States and continued  
with unabated vigor until the early summer of  
1920. Then prices and volume of business came  
smashing down, burying manufacturers, farmers,  
exporters and all kinds of merchandisers under  
an avalanche of business failures. The ensuing  
depression lasted all through 1920, 1921 and a  
part of 1922. In the fall of last year business  
began picking up in a desultory fashion. Since  
the turn of the year, it has started in earnest.  
In the month of February industrial production was  
greater than in any previous month in the history  
of the country with the exception of one month in  
the war year of 1917. Railroad traffic is at re-  
cord figures despite the high rates. The whole list  
of prices is rising. In a word, the country is  
mounting up on the wings of a big boom.

In years past, business booms have been com-  
paratively few and far between. The boom periods  
have been longer and the depressed periods  
more numerous. By the time a new boom  
imperceptibly crept up, the last one had been so  
far forgotten that the identifying signs had be-  
come unfamiliar. In the present instance, the  
last boom is so recent that its hallmarks are fresh  
in the minds of business men. They are able to  
recognize now the same signs they saw in 1919;  
only four years ago.  
Business men know that a boom is in its first  
stages and they are greatly interested in its char-  
acteristics. Its development will be watched and  
studied as no boom ever was before. In short,  
while the boom is alive and active, it will be vivisected.

An additional stimulus to this vivisection is the  
report, just issued, of the special committee on  
the business cycle appointed at the president's  
conference on unemployment. In the fall of 1921,  
when the last depression was at its depth and the  
unemployed were estimated at five millions, the  
president called a conference of business men and  
economists to attempt to find means of alleviating  
the distress. Much was done to take care of the  
instant and pressing demand for employment but  
it was also concluded that a longer review should  
be made and a special committee was named to  
make a survey of the causes of the alternate  
booms and depressions which constitute what is  
known as the business cycle. This committee  
studied the matter for a year and a half and has  
just issued its report.

This report will increase the interest of busi-  
ness men in the vivisection of the young boom  
which now is on hand because the committee's  
findings puts squarely upon the individual business  
man the responsibility for leveling the ups and  
downs which create the business cycle.  
Briefly, the committee declares the individual  
business man should first constantly keep himself  
informed of everything taking place in the world  
affecting his own line of business. He should  
follow reports of production, consumption, prices  
and methods. Second, he should inform himself  
of what is going on in all other business. It is  
pointed out that the shoe manufacturer might  
keep well informed on the shoe making industry,  
but if he remained ignorant of a slump in steel  
and coal which threw thousands out of work, he  
would be caught unprepared.

All businesses must be prosperous together.  
If the man in one line finds another line is hav-  
ing trouble, it is time for him to trim his sails.  
The business man also must keep himself informed  
concerning the general credit situation. If the  
farmers, for instance, are having difficulties in ob-  
taining credit, his business ultimately will be ad-  
versely affected even though he is encountering  
no present difficulty.  
The committee thus urges every business man  
to obtain regular information on what is hap-  
pening in all businesses. The scope must include  
the whole world, for the markets abroad have a  
reflex action on markets here. In fact the last  
depression here was precipitated by the collapse  
of the silk market in Japan. Wise business men  
of that period who had been studying world con-  
ditions and knew of the Japanese silk panic, in-  
stantly prepared for a business slump in the  
United States.

Already it is being noted that some of the  
same signs of overexpansion that caused the last  
upheaval have appeared. One of the most con-  
spicuous of these signs is the placing by retailers  
or jobbers of duplicate orders with manufacturers.  
A manufacturer who is busy will not promise early  
delivery of an order of goods. This alarms the  
dealer who wants to be sure to get his goods, so  
he not only places an order to be delivered as  
soon as possible but to be sure he obtains some-  
thing for his store, places the same order  
with two or three manufacturers. This creates a  
fictional situation and accelerates the boom. The  
result is that when the manufacturers finally do  
get around to making the goods and start deliv-  
ering the duplicate orders, the man who placed them  
begins canceling. Then the manufacturers have  
the goods on hand creating an oversupply. The  
price breaks and business depression follows.

By vivisection of the boom it is hoped that the  
business men will learn to avoid the actions which  
aggravate the situation.  
When the signs of boom appear, they will move  
cautiously and be sure not to overbuy or over-  
borrow. By such a policy they can avoid a  
crash and keep business going on an even keel.

where he may feel freedom to enter and to leave  
at no cost. It was shown that a club house for  
men was needed. It will immediately be sug-  
gested that the Y. M. C. A. offers all that is nec-  
essary, but the Y. M. C. A. does not fill the bill  
nor does it appeal to the men we have in mind.  
There is a great opportunity right here to make a  
club room for American Legion members and  
others who want access to a place where a few  
hours may be spent. In making a memorial and  
using a building for the purpose it certainly

report, just issued, of the special committee on  
the business cycle appointed at the president's  
conference on unemployment. In the fall of 1921,  
when the last depression was at its depth and the  
unemployed were estimated at five millions, the  
president called a conference of business men and  
economists to attempt to find means of alleviating  
the distress. Much was done to take care of the  
instant and pressing demand for employment but  
it was also concluded that a longer review should  
be made and a special committee was named to  
make a survey of the causes of the alternate  
booms and depressions which constitute what is  
known as the business cycle. This committee  
studied the matter for a year and a half and has  
just issued its report.

This report will increase the interest of busi-  
ness men in the vivisection of the young boom  
which now is on hand because the committee's  
findings puts squarely upon the individual business  
man the responsibility for leveling the ups and  
downs which create the business cycle.  
Briefly, the committee declares the individual  
business man should first constantly keep himself  
informed of everything taking place in the world  
affecting his own line of business. He should  
follow reports of production, consumption, prices  
and methods. Second, he should inform himself  
of what is going on in all other business. It is  
pointed out that the shoe manufacturer might  
keep well informed on the shoe making industry,  
but if he remained ignorant of a slump in steel  
and coal which threw thousands out of work, he  
would be caught unprepared.

All businesses must be prosperous together.  
If the man in one line finds another line is hav-  
ing trouble, it is time for him to trim his sails.  
The business man also must keep himself informed  
concerning the general credit situation. If the  
farmers, for instance, are having difficulties in ob-  
taining credit, his business ultimately will be ad-  
versely affected even though he is encountering  
no present difficulty.  
The committee thus urges every business man  
to obtain regular information on what is hap-  
pening in all businesses. The scope must include  
the whole world, for the markets abroad have a  
reflex action on markets here. In fact the last  
depression here was precipitated by the collapse  
of the silk market in Japan. Wise business men  
of that period who had been studying world con-  
ditions and knew of the Japanese silk panic, in-  
stantly prepared for a business slump in the  
United States.

Already it is being noted that some of the  
same signs of overexpansion that caused the last  
upheaval have appeared. One of the most con-  
spicuous of these signs is the placing by retailers  
or jobbers of duplicate orders with manufacturers.  
A manufacturer who is busy will not promise early  
delivery of an order of goods. This alarms the  
dealer who wants to be sure to get his goods, so  
he not only places an order to be delivered as  
soon as possible but to be sure he obtains some-  
thing for his store, places the same order  
with two or three manufacturers. This creates a  
fictional situation and accelerates the boom. The  
result is that when the manufacturers finally do  
get around to making the goods and start deliv-  
ering the duplicate orders, the man who placed them  
begins canceling. Then the manufacturers have  
the goods on hand creating an oversupply. The  
price breaks and business depression follows.

By vivisection of the boom it is hoped that the  
business men will learn to avoid the actions which  
aggravate the situation.  
When the signs of boom appear, they will move  
cautiously and be sure not to overbuy or over-  
borrow. By such a policy they can avoid a  
crash and keep business going on an even keel.

where he may feel freedom to enter and to leave  
at no cost. It was shown that a club house for  
men was needed. It will immediately be sug-  
gested that the Y. M. C. A. offers all that is nec-  
essary, but the Y. M. C. A. does not fill the bill  
nor does it appeal to the men we have in mind.  
There is a great opportunity right here to make a  
club room for American Legion members and  
others who want access to a place where a few  
hours may be spent. In making a memorial and  
using a building for the purpose it certainly  
seems much more important than a silent and  
sombre place only occasionally visited.

One of the reasons why there are more people  
available for employment is that the federal gov-  
ernment has reduced the number on the pay-  
rolls by 102,101 in two years.  
Most of Europe thinks the debt they owe us is  
one they can never repay.  
"Passive resistance" in the Ruhr means ditch-  
ing of railroad tracks.  
Henry Ford will receive lots of backing in his  
refusal to be a candidate for president.

Washington.—Probably for the first time in  
history, a business boom is about to be vivisected.  
It is the experience of mankind that business  
booms invariably are followed by periods of de-  
pression. Many economists of the college profes-  
sor type have spent much time in studying past  
economic phenomena and have deduced theories,  
some of which have proved valuable and some  
of which have been exploded by the next boom.  
The United States is just stepping into the  
midst of another business boom and for a num-  
ber of reasons the period is of special impor-  
tance.  
Usually business booms creep up on a nation  
imperceptibly. The presence of the boom is  
scarcely realized until it is present and in full  
swing. People are too busy to do much studying  
at such times and, therefore, the boom proceeds  
feverishly to its ultimate collapse. During the  
slack period of depression which follows there is  
ample time to study the phenomenon but by that  
time it has passed.  
Three months after the armistice, a business  
boom started in the United States and continued  
with unabated vigor until the early summer of  
1920. Then prices and volume of business came  
smashing down, burying manufacturers, farmers,  
exporters and all kinds of merchandisers under  
an avalanche of business failures. The ensuing  
depression lasted all through 1920, 1921 and a  
part of 1922. In the fall of last year business  
began picking up in a desultory fashion. Since  
the turn of the year, it has started in earnest.  
In the month of February industrial production was  
greater than in any previous month in the history  
of the country with the exception of one month in  
the war year of 1917. Railroad traffic is at re-  
cord figures despite the high rates. The whole list  
of prices is rising. In a word, the country is  
mounting up on the wings of a big boom.

In years past, business booms have been com-  
paratively few and far between. The boom periods  
have been longer and the depressed periods  
more numerous. By the time a new boom  
imperceptibly crept up, the last one had been so  
far forgotten that the identifying signs had be-  
come unfamiliar. In the present instance, the  
last boom is so recent that its hallmarks are fresh  
in the minds of business men. They are able to  
recognize now the same signs they saw in 1919;  
only four years ago.  
Business men know that a boom is in its first  
stages and they are greatly interested in its char-  
acteristics. Its development will be watched and  
studied as no boom ever was before. In short,  
while the boom is alive and active, it will be vivisected.

An additional stimulus to this vivisection is the  
report, just issued, of the special committee on  
the business cycle appointed at the president's  
conference on unemployment. In the fall of 1921,  
when the last depression was at its depth and the  
unemployed were estimated at five millions, the  
president called a conference of business men and  
economists to attempt to find means of alleviating  
the distress. Much was done to take care of the  
instant and pressing demand for employment but  
it was also concluded that a longer review should  
be made and a special committee was named to  
make a survey of the causes of the alternate  
booms and depressions which constitute what is  
known as the business cycle. This committee  
studied the matter for a year and a half and has  
just issued its report.

This report will increase the interest of busi-  
ness men in the vivisection of the young boom  
which now is on hand because the committee's  
findings puts squarely upon the individual business  
man the responsibility for leveling the ups and  
downs which create the business cycle.  
Briefly, the committee declares the individual  
business man should first constantly keep himself  
informed of everything taking place in the world  
affecting his own line of business. He should  
follow reports of production, consumption, prices  
and methods. Second, he should inform himself  
of what is going on in all other business. It is  
pointed out that the shoe manufacturer might  
keep well informed on the shoe making industry,  
but if he remained ignorant of a slump in steel  
and coal which threw thousands out of work, he  
would be caught unprepared.

All businesses must be prosperous together.  
If the man in one line finds another line is hav-

## Cheaper to Take Ice Than Spoil Food

A few cents a day will buy enough ice for average family use. Food costs you many times as much. You cannot afford to waste it. At this season you need ice, not only to keep food from spoiling, but also to retain its fresh, appetizing flavor and the nourishing qualities so necessary to health. Keeping food down cellar or in a back entry is not safe. At any temperature above 50 degrees it spoils.

## The Comfort of Having Ice

cannot be measured in money. It makes a big difference in the family health, especially the health of young children. They must have fresh milk and you cannot keep it fresh without ice. Disease germs multiply rapidly in milk which is not kept COLD. Take ice regularly the year around. It will save you money.

# The Riddle of the Spinning Wheel

By M. E. and T. W. HANSHEW

Being an exploit in the Career of Hamilton Cleek, Detective.

Copyright 1922 by Doubleday, Page & Co. and published by arrangement with McClure Newspaper Syndicate of New York City.

## WHAT HAS GONE BEFORE

Hamilton Cleek, known as Mr. Deland, detective, is called into counsel by Mr. Narkom, superintendent of the Ayson castle, to investigate the mysterious disappearance of the family. She relates that her father has married a second time to Paul, a French woman, who has a son, Cyril, and Miss Duggan, believes in plotting to get the estates from her brother, Ross Duggan, electric expert, who has invited the anger of the father by wiring the house and installing electric Cleek goes to Ayson castle to investigate.

## CHAPTER II

**Cleek to the Rescue**  
She stopped speaking suddenly and choked back a sob, covering her face with her gloved hands, and for a moment Deland sat looking at her, eyes narrowed, and the curious little of the travelling up his face. Here was very evident distress indeed. And real, too, if he knew anything of women. And yet—when she turned aside her head, and he saw the light of her eyes, she had suggested? There was absolutely nothing to go upon but a woman's intuition—and that, strangely enough, very rarely, and as a woman's intuition every time, and feel he'd get good credit.

"Listen, Miss Duggan," he said, leaning forward in his seat and smiling at her with keen, critical eyes. "You are very grieved, I know, but as Mr. Narkom has just told me, you have nothing to go upon but—actually—your own intuition. I don't think here does not always bank on that. I do. A woman's intuition is often a great deal better than a whole chain of circumstantial evidence. That is where Mr. Narkom and I differ—old friends?"

"How will that do?"  
"There is another case besides yours up in Argylshire awaiting my investigation. I'll tell you what I'll do. I'll come in to see you tomorrow—tonight, in fact, by the midnight train—and look into both cases at once. And if I can find anything requiring my assistance, I'll gladly give you my help."

Mr. Narkom stifled an exclamation of surprise. Here was an interest which he had never dreamed of awakening. Cleek (for such was the name of the gentleman in his administration) rarely, if ever, showed such immediate interest unless there was more in the thing than met the eye. He had seen that although this Miss Duggan was obviously in earnest, he himself would be inclined to put the thing down to a woman's natural jealousy for her lover, for the man who was beloved to her by all the ties of flesh and blood and for whom she would fight if necessary, to the bitter end. He had seen this sort of thing before—and paid very little attention to it. The poison story was weak—undoubtedly weak—though no doubt Miss Duggan firmly believed in it. A thousand things might have been contained in the phial other than the poison to which her jealous mind had instantly leaped. What, for Cleek to take such an immediate interest—Cleek!

He sucked in his breath noisily. "Gad!" thought he "there is more in this than meets the eye; of that I'm sure, or he'd never take such an interest in it. Of course, there's those illicit stills in the same county, but that's a different matter. I was right in sending for him, by James! It was worth taking a chance over."

Then he turned his eyes to where Miss Duggan had leaned forward suddenly, her wet eyes alight with gratitude and face instantly transformed.

"Oh, will you?—will you? How good of you how very, very good!" she cried with little half-sigh of utter relief. "That is all I ask, Mr. Deland. Someone will come and see—see for themselves how things stand at Ayson Castle. I tell you, my intuition is rarely wrong, and if it is, I have made the first mistake in all my life. But I'm not mistaken. Or

that I am positively, absolutely sure."

"Well, let's hope you are, my dear young lady," said Mr. Narkom, in his practical fashion, getting to his feet at a sign from Cleek, to show that the interview was over at last. "You are lucky to have this help of Mr. Deland, I must say. Personally I never thought for an instant that your case would interest him, but as it is, you'll no doubt meet him on the midnight express. Deland?—you tonight, then, by the midnight express, or would you prefer to travel alone?"

"Thank you," she got to her feet and put her gloved hand into his. "You have been very, very kind. And I hope, too, that you are right concerning my intuition. But I am afraid not. Thank you so much for everything. And you, too, Mr. Deland, I shall expect to see you tonight, then, by the midnight express, or would you prefer to travel alone?"

Cleek bowed. "I shall be glad of your company, if you will permit me to travel with you, Miss Duggan," he responded gallantly—feeling, however, that he would have preferred to travel alone. "There will be a good deal of reading that I shall have to do, but if you'll pardon that, I'll be glad to do it for you."

"Tonight, then, by the midnight express," she said, looking at him. "I shall be glad to see you. I shall already have secured two corner seats. Back to the engine, or no?"

"Back, please," she made answer, giving him a grateful squeeze on the arm. "How kind you are! I feel hopeful already! Somehow, you inspire me with confidence. I know that your hand is on the right line, and I am glad to have you with me."

She shrugged her shoulders, and let the rest of the sentence go by default, and then, bowing slightly to each in turn, took her departure, a graceful, elegant figure, bearing in every line and look the mark of a noble ancestry. As the door closed behind her, Cleek wheeled round, and striding over to Mr. Narkom, set a hand upon each of his bony shoulders, and stood a moment looking down into his face. Then he gave a short, sharp laugh, and let his hands drop. "There's more in that than meets the eye," he said, with a lift of the shoulders and a twitch of the lip. "There's a woman who has sincerely written upon her face the marks of a noble ancestry. I shall be glad to have you with me. Your method would be to send her home again, until she brought you, the poison bottle or the cork of it, or the bread-and-milk into which the stuff had been poured—eh, old chap?"

"And mine—what?" He spread out his hands, and shrugged his shoulders, and swung upon his heel with a laugh for the rueful expression upon Mr. Narkom's face.

"Oh, I say, old fellow," began the Superintendent excitedly, but Cleek's uplifted hand silenced him. "Familiarity breeds the best of comradeship—my friend, and a little dig in the ribs now and then should never be read missus. I owe much to you, Mr. Narkom. You know the depths of my gratitude. And if I am not permitted sometimes to tease . . . Oh, you silly old boob! You'll be a pal to me to the end of your days. There are too many sensitive nerves running round underneath that plump and portly exterior of yours. And your heart is too soft. But don't let us stray from our business in this ridiculous fashion, for time slips by and the hour isn't half long enough for what must be done in it. Tell me briefly what she told you, and in as near your own words as you can remember, and then I'll be off and away to make arrangements for to-night's journey. If there's nothing in this thing, I'll send you a wire: 'Empty.'"

"You'll understand. If there is, then the word 'Full' will answer quite satisfactorily, without giving away our plans to any interested persons. As for the whisky-still business, what more perfect harbour for it than this Mauney weather-covered hills of Scotland? I'll have pews for you, my friend, never fear; and I'll have a fond hand upon Cleek's sleeve and looked up into his smiling face. "Gad! The 'Yard' would go to pieces without you nowadays. You saved us from collapse in the old days of the Mauney business, when the whole country seemed to have run amuck—and blamed the police for it! And you're saying us every time now. What do we do with your wonderful birthright—which disguises you so successfully that even I, your best friend, don't know you, when you choose—well, I can't say. But my blessing with you, Cleek, and the best of luck! You'll find what you're looking for, I haven't a doubt."

"Very well, I find what I'm looking for," said Cleek quietly, the queer little one-sided smile travelling up his cheek once more. "I don't wish to sound egotistical, but there are few things can beat your humble when his mind's made up. Else how would I have travelled back from the underworld into such a position of trust and uniqueness as this? Only that a woman's eyes lit the way for me, and a man's great heart opened the door—and the creek determined to become the gentleman and pitched into it forthwith all he was worth. Cussed—that's me!"

"And clean! And with those two attributes Hercules was enabled to clean out the Augean stables, and to prove himself ready for anything that came," supplemented Mr. Narkom, with a noisy sigh. "Cussed and clean! That's your motto. I'll back every time. Now, then, to business. We've thrown enough bouquets at each other to last for a lifetime! There's a delusion of a cipher case which is tying me into knots as to how to handle it. Here are the facts, Cleek. Nothing much, but you will make more than I can of them; so here goes."

And so it came about that when Cleek left the office in Scotland Yard that afternoon, and strolled leisurely down toward his digs in Clarges Street, he was in possession of the full story of the Mauney case, told to him by Mr. Narkom, and had gleaned therewith one or two incidental conclusions upon his own account.

The journey to Scotland was likely to prove a fruitful one. And he was to see the gaunt crags of that most majestic and rugged country under more interesting conditions than he had at first bargained for.

But how interesting, even Cleek himself was not able to foresee.

## WALWORTH COUNTY

### ELKHORN

Mrs. Grant Harrington, "Tele" on 35, County Seat News.

Elkhorn — At the boys' oratorical contest, Thursday night, Glenn Webster, John Voss, Alvin Thurnish and Leslie Stokes, were selected for the final contest, next week, to decide who will enter for the league honor. Mrs. W. C. Voelkel was hostess to the 12-25 club, Thursday night, and a few invited guests.

The program at the Methodist church next Wednesday evening is a benefit for the new school building. The program will be as follows: "Let Me Live in a House by the Side of the Road," by Mrs. Frances Cavanaugh, reading by Mrs. R. C. Ross, and by Miss Agnes Pfeffer, entitled, "The Man in the Shadow." Refreshments were served.

Charles Schultz is in Hot Springs, Ark. where he expects to remain several days.

Mrs. James Cummings attended a meeting of the Sunshine club at Danville, Thursday, at the home of Mrs. George Young.

The Easter program will be repeated at the Methodist church next Sunday night.

Mr. and Mrs. S. Shingler have returned to Fond du Lac, Wis., after spending several weeks at the Elks home.

The Eastern Star benefit play, "A Runaway Match," was played at the Elks home, Thursday and Friday nights. J. R. Wilkins was the director.

A. H. Schumacher has sold his garage to Arthur Watts. Mr. Watts is having the building remodeled and a show room added. Mr. Schumacher will build a garage and a salesroom opposite the postoffice.

The annual declamatory and oratorical contests will be held in the high school Wednesday and Thursday nights. Those who will take part are: Vesta Shimmings, Agnes Pfeffer, Ethel Welch, Evelyn Campbell, Mabel Shepherd, Myrtle Dinsmore, Laura Olsch, Ruth Babcock, Beatrice Hoss, Gladys Ross, William Jacobson, Harry Bashaw, Ralph McAfee and Harry Mooney.

Mrs. George Bashaw, East Delavan, fell downstairs and seriously injured her knee.

John O'Brien and Robert MacDonald spent Friday in Milwaukee.

Mrs. G. E. Kueker and two children, Troy, S. D., arrived here Friday for a visit with her daughter, Mrs. E. J. Madsen and son, Roy Kueker.

Mr. and Mrs. A. W. Johnson, Milwaukee, announced the birth of a son, Friday, April 13. Mrs. Johnson was formerly Elma Barker, Delavan.

Harold Walts spent Friday in Milwaukee.

### DEHAVAN

Dehavan — The Women's club held a Kensington, Thursday, at the home of Mrs. W. C. Varwelder. Thirty attended and the hostess was assisted by Mrs. Lillian Green and Mrs. J. F. Donwidale. The program put on by the entertainment committee follows: A reading, "Let Me Live in a House by the Side of the Road," by Mrs. Frances Cavanaugh, reading by Mrs. R. C. Ross, and by Miss Agnes Pfeffer, entitled, "The Man in the Shadow." Refreshments were served.

Charles Schultz is in Hot Springs, Ark. where he expects to remain several days.

Mrs. James Cummings attended a meeting of the Sunshine club at Danville, Thursday, at the home of Mrs. George Young.

The Easter program will be repeated at the Methodist church next Sunday night.

Mr. and Mrs. S. Shingler have returned to Fond du Lac, Wis., after spending several weeks at the Elks home.

The Eastern Star benefit play, "A Runaway Match," was played at the Elks home, Thursday and Friday nights. J. R. Wilkins was the director.

A. H. Schumacher has sold his garage to Arthur Watts. Mr. Watts is having the building remodeled and a show room added. Mr. Schumacher will build a garage and a salesroom opposite the postoffice.

The annual declamatory and oratorical contests will be held in the high school Wednesday and Thursday nights. Mrs. George Bashaw, East Delavan, fell downstairs and seriously injured her knee.

John O'Brien and Robert MacDonald spent Friday in Milwaukee.

Mrs. G. E. Kueker and two children, Troy, S. D., arrived here Friday for a visit with her daughter, Mrs. E. J. Madsen and son, Roy Kueker.

Mr. and Mrs. A. W. Johnson, Milwaukee, announced the birth of a son, Friday, April 13. Mrs. Johnson was formerly Elma Barker, Delavan.

Harold Walts spent Friday in Milwaukee.

### SHARON

Sharon — The annual high school play, "Fifty-Fifty" was given to a full house Thursday night and will be given the second time Saturday night. Each member of the cast did splendid work and the boys' glee club furnished the music between acts. The following is the cast of the play: "Paul Green, author; Benjamin Dotson, 'Horse Brown,' artist; Stanley Bjelland; 'Sophia Bland,' dancer; Katherine Gile; 'May Dexter,' adventures; Grace Eaton; 'Mrs. Podge,' landlady; Olive Kinn; 'Pat O'Mahoney,' janitor; Russell Peterson; 'Mrs. Halley,' art collector; Lillie Eator; 'Mrs. Paul Green,' artist; Bjelland; 'Captain Paul Green,' Wilbur Bolinger; 'Smudge, valet,' Rob Sikes. The women of the German Lutheran church met Thursday at the

## WATERTOWN

### MAN KILLED

[An Associated Press.]  
Watertown, Wis., April 14.—A man, 45, was killed almost instantly Friday afternoon, about three miles west of this city, when the touring car in which he was riding slid across a muddy stretch of road and crashed into a wooden fence.

The driver, Carl Schwenker, 45, was killed almost instantly Friday afternoon, about three miles west of this city, when the touring car in which he was riding slid across a muddy stretch of road and crashed into a wooden fence.

The W. R. C. will hold a social Tuesday with Miss Laura Brownson and a large attendance is desired as the time is getting short and the number of popples must be completed.

Mrs. George Dowle and two children went to Cannon Friday to visit her parents.

Hazel Welch has been appointed assistant at the American Milk Co. plant to take the place of Claude Denmore who has moved to Pay, Ill.

Mr. and Mrs. Art Davis were called to Pulmar Thursday by the death of his son.

Mrs. Sherman Gile and son Charles of Kenosha came Thursday to attend the funeral of his mother Mrs. Fannie Gile.

Mr. and Mrs. Will Davis and family went to Pulmar Friday to attend the funeral of an uncle.

Miss Ida Sherman began work Thursday in the Delavan Bradley Mill.

Mrs. Sanna Morgan went to Clinton Wednesday to care for Mrs. Ann Annastson. Her son Carl will remain with Mrs. L. M. Stoll during her absence.

First annual convention of the Quak Walton league of America will be held in Chicago, April 19-20 and 21st and on the night of April 21, the Chicago chapter will hold its monthly meeting and banquet at the Hotel Chicago. Secretary Ed. Hoyer, of the Janesville club has received information concerning the meeting, and expects to attend along with other local members of the fast growing organization. The Rev. O. W. (Outdoor) Smith of Evansville is the delegate of the Janesville club to the convention.

For the banquet such speakers as Dr. Henry Van Dyke, Governor Kendall, Iowa, Emerson Hough, noted author, Dr. James A. Henshaw, Secretary H. J. Hoover, Governor McCray, of Indiana, Zane Grey, author, Dr. Frederick Bradley and James Oliver Curwood, will be present at the banquet.

Reservations for the banquet may be made with J. E. Peet, 214 Huron St., Chicago. The banquet is \$2.50 a plate.

The Janesville club will hold its regular meeting Tuesday night at the city hall and arrangements are being made to have Elmer S. Hall, Madison, former secretary of state and now the one man conservation commission speak.

NOTICE  
I have been selected as one of a party of 156 physicians and surgeons of the middle-west to visit the Medical Schools and Clinics of the east. We leave Chicago, by special train, April 15th, returning there April 25th.

I will be in my office April 30th.  
DR. J. F. ROOD,  
Darien, Wis.

offer for sale and sell at public auction to the highest bidder, at the western entrance at the Rock County Court House, in the City of Janesville, Rock County, Wisconsin, on the 18th day of May, 1933, at 10:00 o'clock in the forenoon of that day the following described property and real estate lying and being in the City of Janesville, Rock County, Wisconsin, in and by said judgment of foreclosure directed to be sold: Described as follows, to-wit:

Lots Eighty-two (82) and Eighty-three (83) Carrington's Crown Addition to the City of Janesville, Rock County, Wisconsin, according to the record plat thereof, together with the privilege and appurtenances to the same belonging, or so much thereof as shall be sufficient to satisfy the claims directed to be sold, and as may be sold separately without material injury to the parties in interest.

Dated, this 24th day of March, 1933.

## Another Cut in Coal Prices

Since coming up this market two months ago, I have brought the price of Bituminous coal down three dollars per ton, and if I were to get out of this market it would go back to where it was.

## Am I Entitled to the Business?

I am shipping coal from the famous Block Mines—the best steam producing coal in existence—direct to the consuming trade in car lots only. Freight paid to Janesville, Beloit or Madison.

Mine Run ton ..... \$5.50  
Small Egg, 13 in ..... 6.00  
Large Egg, ton ..... 6.25  
4-inch Lump, ton ..... 6.15  
6-inch Lump, ton ..... 6.50  
Stove Nut, ton ..... 6.00  
Large Block, ton ..... 6.75

Mines have closed down. This means no production until prices advance.

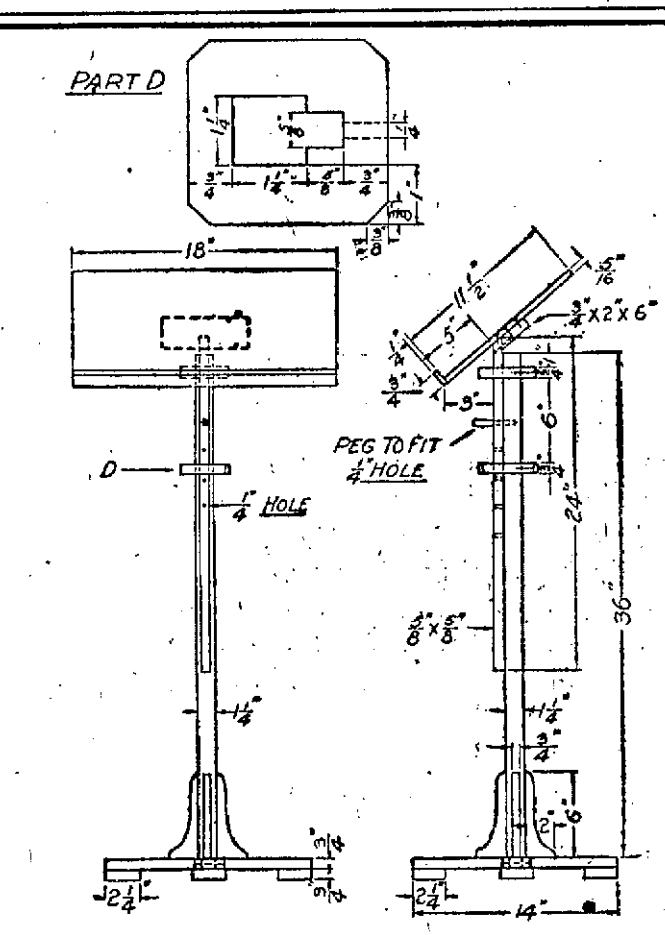

Book your order at once with me for future delivery and save money.

Beaumont De Forest

## Tool-Craft

All Sorts of Things for Boys and Men to Make

By Frank I. Solar

### How to Make a Music Stand

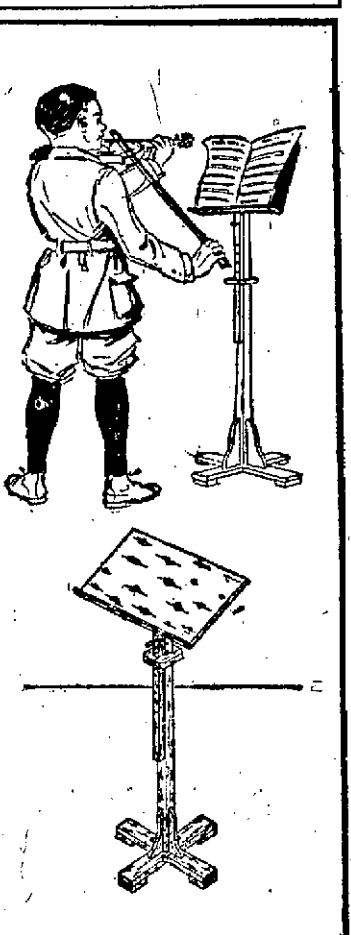

Any one who plays a musical instrument knows how indispensable a music stand is. The one shown above is easy to make, and can be raised for one who stands while playing a violin or lowered for one who sits while playing a band or stringed instrument.

Soft wood, such as gum or pine, is best to use. It is easy to work, and, if stained and varnished, will look very well.

First, make the base. Cut the two cross-pieces to size and half-lap them at the center. Tack and glue on the four blocks that form the feet. The appearance of the stand

may be improved by rounding the edges and ends of these pieces.

Next make the post. This is fastened to the base with a large, long screw run up from underneath. The four brackets are fastened to the base with screws, and to the post with finishing nails.

### Be a Musician

There is no better way to spend the long winter evenings than in learning to play a musical instrument. Start by making the music stand described here. With it, practice will be easier and more pleasant.

Make the two parts D and screw them to the post as shown in the sketch. Next construct the slide which works up and down in these parts. Note particularly that several holes are necessary in this part and also one in the post. By means of a peg plugged into these holes it will be possible to adjust the stand to the desired height.

The tray for supporting the music is made of thin material and is attached by one screw run into the end of the post and two into a block glued to the back of the tray. A strip is necessary across the edge so that the music will not slide off the rack.

### FONTANA

Fontana—Peter Goodbout spent the week-end with relatives in Waukegan.

Guy Craft returned Monday evening from his visit in Chicago.

GAZETTE GOOD TIMES CLUB

FOR ALL SCHOOL BOYS AND GIRLS

MRS. FLORENCE SLOWIN HYDE, EDITOR.

The April bulletin for local branches of the Good Times club has been delayed in order that it might include information as to the list of events and the results of the contests followed in connection with the Gazette town ship playdays.

## TITLE PRIZE IX—PICK A TILE AND GET \$2.50

This is No. 9. \$2.50 for the best short description of it in a line. Why not make a little family game of thinking up titles? Get busy when you get the paper.

The only rules for the contest are as follows:

No title may have more than twelve words.

Titles must be written on postcards.

Do not enclose titles in envelopes.

Titles must be in this office by Thursday night. Otherwise they will not be considered by the judges.

Address Title Editor, the Saturday and Sunday Gazette.

## Woman's Emancipation and Man's Exasperation

The title contest winner for this week is Mrs. W. T. Gilbert 232 North Chatham street. "Woman's Emancipation and Man's Exasperation" 29 persons wrote "Absent without leave or 'A. W. O. L.'"

The picture this week will be easy for many good titles. When between five hundred and a thousand persons are competing in a race like this and only one winner the one who sticks is more apt to get a prize than the one who writes a title once only. Many of the contestants have been in every since the race began nine weeks ago. The winner this week has written a title several times.

Try your hand this week again if you have been in the race for the weekly \$2.50 and you may be as successful as Mrs. Gilbert. It has cost her about eight cents to win the \$2.50.

## 1898 MENU REVIVES "GOOD OLD DAYS"

An interesting menu of the Myers hotel that recalls the days of 1898—"the good old days" to many people—was received by mail a few days ago by Postmaster J. J. Cunningham. It was sent by S. J. Redfern, Dallas, Tex., a former resident, who on the menu sends his "best regards" and wishes to Janesville. The menu is an elaborate one of the meal served by the hotel Dec. 31, 1898, and is the kind that is practically extinct now.

## BLOOMINGTON MAN MISSING 20 YEARS

As the location of most friends and relatives is part of the service to the public the postal department gives, Postmaster J. J. Cunningham has been asked to aid in finding the

## ARTICLE NO. 25 Business Doubles

A business double is a double made for the purpose of defeating the bid doubled. The distinction between a business double and an informative double has already been specified in the articles on the informative double. A business double is any double made after partner has bid or doubled, or any double of an original suit bid of four or more, or a double of an original two. No Trump.

In this connection please note that after partner has bid a No Trump and opponents have overbid, and the partner of the No Trump bidder has doubled, such a double is a business double and is made for the purpose of defeating the bid. Assume a No Trump bid by dealer, pass by second and third hands, and a bid of two Hearts by fourth hand. If the dealer's partner doubles this bid such a double is a business double. There is considerable confusion over this point as many players distinguish between an original suit and No Trump bid, regarding the latter as no bid in case of a subsequent double by partner, and therefore regard such double as an informative double. Such practice, however, is confusing and there is no logical reason for not regarding a No Trump as a bid from the viewpoint of the subsequent doubles.

It should also be noted that if a player overbids an opponent's bid and subsequently doubles, such double is a business double even though his partner has not bid. For example, assume a Spade bid by dealer, two Hearts by second hand, pass by third and fourth hands, two Spades by dealer, and doubled by second hand. Such a double is a business double even though partner has not bid. What distinguishes this double from an informative double is that it

was not made at first opportunity but only after the doubler first bid his own suit.

Most business doubles are made, of course, after the bidding has reached such a point that it is very simple to determine that they are made to defeat the contract. One point that can not be too greatly emphasized in this connection is: Don't double a bid which, if made, will give opponents a game that they couldn't have made otherwise. For example, if opponents bid four Clubs, are doubled, and made four Clubs, they make a game not possible except for the double.

Such a double is very dangerous and should not be made unless the doubler is absolutely certain of defeating the contract. Then, again, there are doubles that can be made without this danger; for example, a bid of four Hearts may be doubled freely whenever one has a fair chance to defeat the bid, because, if contract is made, it gives opponents a game irrespective of the double. Such a double is called a free double, game without the double is called a forced double. The rule is: Make free doubles where there is a reasonable chance to defeat the contract, but make forced doubles only when absolutely certain to defeat the contract.

One of the interesting points that arise after a business double is when to redouble. Very frequently a player whose bid has been doubled is absolutely certain that he can make his contract, but it is not always wise or expedient for him to redouble. Clearer players often will rebid their own suit after a redouble informs them that they cannot defeat their opponents' contract. Under such conditions the redouble is unsound and never should be made unless re-

doubler is sure of a very large penalty in case opponents rebid their own suit. A good example of this point occurred in the following hand held by dealer:

Hearts—A, Q, 8, 2  
Clubs—A, K, Q, 8, 7, 6, 2  
Diamonds—10, 7  
Spades—10, 7

After several rounds of bidding, dealer bid six Clubs and his opponents six Diamonds, which the dealer doubled. His opponents promptly redoubled and the dealer, now realizing that his opponents had no Clubs and would probably make their bid, bid seven Clubs, was doubled, and lost only one trick. His opponents would have made six Diamonds doubled, so that it is easy to figure the loss they caused themselves by their redouble.

## CHILDREN IN CLOSE ESCAPE AS RUNAWAY CAR RAMS RESIDENCE

Two children had a miraculous escape Thursday afternoon when the car in which they were sitting started sliding down hill and was stopped only after it had jumped a curb and hit a house. The children, James Michaelis, nephew of Mrs. M. H. Michaelis, and Jane Jacobs, child of Mr. and Mrs. Rex Jacobs, were in Mrs. Michaelis' car, parked by the side of the Michaelis apartments, Milwaukee avenue, while she was inside. The brakes on the car were released. It is thought by the little boy, although he denies it, and the automobile started down hill, crossing the street car tracks and fortunately missing all the trees. It was stopped when it hit the home of Mr. and Mrs. James Guilen, 3241 Milwaukee street. No damage was done to the car, and the children, far from being frightened, thought it rather a lark.

A modern flapper turns the tables and mothers a mother. See "ADAM'S RIB."

## SCHOOL MAN MAKES GOOD AS HEAD OF CANNING FACTORY

J. A. HAGEMANN

Fort Atkinson—From a position of high trust in state educational circles, J. A. Hagemann, this city, entered the new business and last November was elected president of the Wisconsin Tea Packers' association, evidencing the success he has had in his newest work.

Before going into the canning business, he was treasurer of the Wisconsin State Teachers' association for seven years and superintendent of Fort Atkinson public schools from 1899 to 1912. He became a director of the Fort Atkinson Canning company upon its organization in 1902 and was elected president about two years prior to his relinquishment of the head of Fort Atkinson public schools. He then became president and general manager, the position he holds today. He became secretary of the Wisconsin Tea Packers' association in 1912 and held it until last fall when he refused re-election on account of other business, and was honored with the presidency. In January he attended the national convention at Atlantic City. A business secretary is to be employed by the state association to devote full time to the association's business.

He has served for many years as president of the library board, and was president of the Parent-Teachers' association and superintendent of the Congregational church, directing the church affairs in that capacity, in the absence of a resident pastor.

During the war he was a member of a committee drafted to make the canning industry more efficient to increase the output. In Fort Atkinson he was largely instrumental in the organization of the Men's club for inspiring public spirit and was president and a member of the executive committee during most of its existence.

It has been said of him that he has a hobby for building. While he was superintendent of schools, four ward schools were erected, and one of the finest high school buildings in the state. He is now concentrating his efforts on completion of a new \$100,000 plant for the canning company to replace that destroyed by fire last year.

He married Miss Eva Foster, Oshkosh, a year after coming to Fort Atkinson. Mrs. Hagemann is prominent in civic circles and a woman of considerable musical ability. She directs the Congregational church choir, and is the mother of six children.

## BRODHEAD

Brodhead—Mrs. W. W. Roderick, an old resident of Brodhead, died at her home Thursday night after an illness of some years, apoplexy being the direct cause of death. She is survived by a son, Lyman Roderick, Chicago, and a daughter, Mrs. A. J. Gordon, Sturgeon Bay. Mrs. Gordon was with her mother during the few days.

Mrs. D. S. Hubbard went to Albany Thursday. She was the guest of Mr. and Mrs. John Wall several weeks. Mrs. H. Hogan visited relatives in Milton Junction Thursday.

Mrs. C. E. Mooney was the guest of her son, Dr. Roger Mooney, Madison, Thursday.

Mmes. Eva Ward and H. H. Roderick spent Thursday in Janesville.

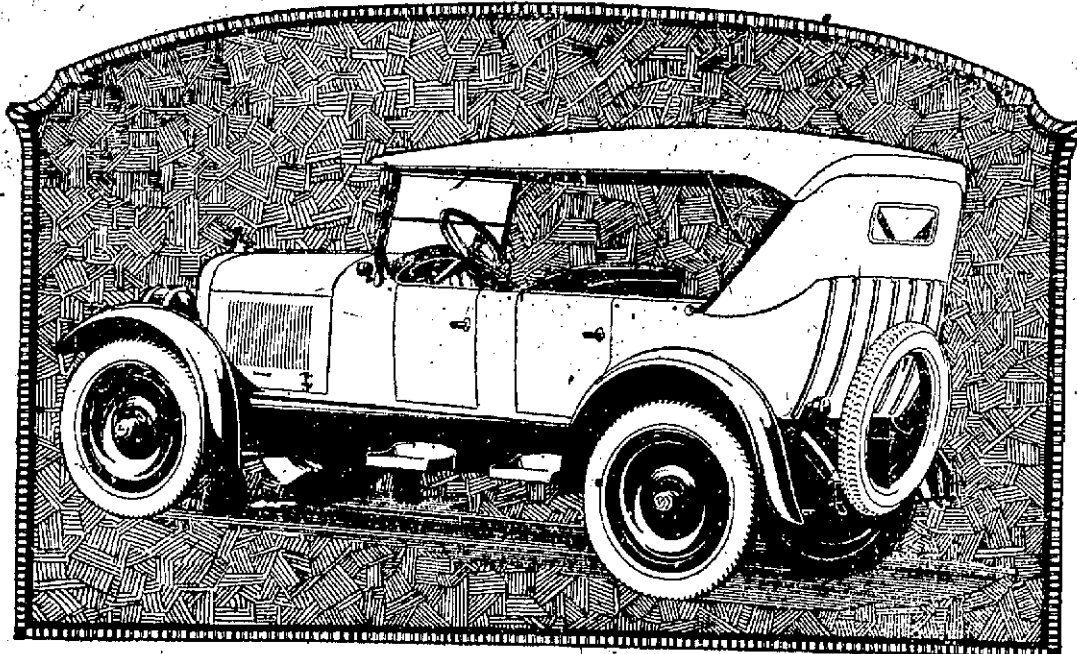

Mr. and Mrs. Hal Paulay went to Madison Thursday for a brief stay. Edwellyn Fleck will move to town soon from his farm on Jordan prairie. Mrs. William Benjamin spent Thursday in Orfordville.

Mr. Previtt was in Beaver Dam Thursday.

## LEYDEN

Leyden—John Fyrite, Edgerton, spent the week-end with his brother, Thomas—W. C. Lathers, Beloit, called here Wednesday.—W. C. Ford has installed a gasoline filling station at his store here—Henry Schumacher is ill.—W. A. Pratt spent Wednesday in Stoughton.

Equipped for H. She (departing Canadian trip)—"Then we watched a boat shoot the rapids."—Ah, a gunboat, I presume.—Boston Evening Transcript.

## The Stunning Velie SPORT MODEL

Velie 58 Sport Model, is attracting admiring attention everywhere. Long, graceful body is edged with solid black walnut moulding. Two aluminum steps on each side in place of running boards. Black fenders. Disc wheels. Vertical nickel rails at the rear of body. An ideal car for touring. A car of marked distinction in city use. Powered by the marvelous Velie-Built six-cylinder motor. Automatically lubricated. Vibrationless. A wonder of smooth, silent power. Four other splendid Velie models open and closed. See them.

## Will your car match these Oakland upkeep figures?

Accurate records kept by Oakland in Cleveland showed an average upkeep cost on Oakland Six-44's of \$8.06 per year

If you would know the quality of a motor car—look to its 'upkeep' costs! It is the money spent in addition to the purchase price that determines the actual value of a car!

In Cleveland last year—based on accurate records—it cost an average of only \$8.06 per year for upkeep expense on Six-44's! Other cities report similarly low averages!

Another excellent indication of quality is found in a motor car's resale value. Try to buy a used "Six-44"—and you'll be surprised at the high price it commands.

These definite and actual evidences of the superior quality of the Oakland car explain—in large measure—why Oakland is enabled to offer its remarkable "Mileage-Basis" Plan!

Before you buy a car this spring—investigate the Oakland carefully. You will find it unusually beautiful, extremely comfortable, powerful, dependable and genuinely economical—and you'll know the minimum number of trouble-free miles you can expect it to give you!

The "Mileage-Basis" Plan  
Main Bearings—40,000 miles or more without attention.  
Valves—15,000 miles or more without need of grinding.  
Connecting Rods—40,000 miles or more without attention.  
Cylinders, Pistons, Rings—Guaranteed in writing 15,000 miles.  
Gas Mileage—20 to 25 miles per gallon.  
Tires—15,000 to 25,000 miles per set.  
Transmission, axles, and major parts—Life of the car.

# Quantrell—Hero in Missouri—Butcher in Kansas

**STEPHEN BOLLES**

Since the publication of the story "The Calfskin Trunk" in the Gazette, a large number of questions have been asked me in reference to Quantrell, the guerrilla leader whose name was mentioned a number of times in the story. It seems there is nothing in the mythology or the romance books about this character, and perhaps one would search the public library all through and not come across this name except in the old dime novels of the Harper's Weekly account of the war. But during the days of the Civil war, it may be learned from an old Harper's Weekly in western Missouri and eastern Kansas, the name of Quantrell and his guerrillas, sent a chill to the heart of women and men. He was with the leader of ruthless and cutthroats was Jesse and Frank James and the Younger brothers whose attack on the Northfield bank was the last exploit of the crime of James. He was with Jesse and Frank afterward, independently of the Youngers, then serving a life sentence in prison, attempted several bank and train robberies.

**No Halo on James**

I have never been able to discover why Jesse James should have been given a halo in the criminal history of the nation. He was a criminal, a murderer and a robber. He was a ruthless and murderous in his nature and in his youth—he was but 19 years of age when he joined Quantrell and the gang of cutthroats and murderers in his crimes. It is 41 years ago since Bob Ford betrayed and shot Jesse James, April 3, 1882, at St. Joseph, Mo. Since that time he has been built a new kind of hero, who, by the use of the automobile and deadly automatics, has committed more daring and ruthless crimes and no one for a moment has thought of him as a hero. He was a ruthless and murderous in his nature and in his youth—he was but 19 years of age when he joined Quantrell and the gang of cutthroats and murderers in his crimes. It is 41 years ago since Bob Ford betrayed and shot Jesse James, April 3, 1882, at St. Joseph, Mo. Since that time he has been built a new kind of hero, who, by the use of the automobile and deadly automatics, has committed more daring and ruthless crimes and no one for a moment has thought of him as a hero.

**Jefferson County**

**FORT ATKINSON**

Fort Atkinson — The Volunteers society met with Mrs. William Bartlett, Mrs. C. H. Abbott, and Mrs. L. C. Holstein as assisting hostesses. The local debating team was defeated by Fremont, who won the state championship. Over \$500 was taken in at the high school carnival, Thursday night.

The city library has recently been presented with 65 popular novels, the gift of Mr. and Mrs. W. E. Carpenter.

Mrs. Otto Luecke entertained three tables of bridge, Friday. Mrs. Henry Wilkerson won first prize, Mrs. William Lacher won second prize, and Mrs. Henry Sellar consolation.

Mrs. John Huppert have returned from an extended visit with their daughter, Mrs. Leola Wristler, Austin, Ill.

Mrs. P. Wilson went to Madison, Friday.

P. E. Mack spent Friday in Janesville.

Reuben Plum died suddenly of heart failure, becoming a victim of his wife and one daughter, Vernice.

Carl Lovell, Oshkosh, is visiting his brother, W. B. Lovell.

Mrs. H. P. Pettit entertained a number of friends, Wednesday, in honor of Mrs. Seth Morrison, Salt Lake City, Utah.

Mrs. Charles Hutchens, who has been spending the winter with her son, Frank, Des Moines, Ia., has returned to her home here.

**Jefferson**

Jefferson—Mrs. Edgar Hoffman, 611 Fourth street, entertained the following Thursday night at a "Five Hundred Party" the Misses Nora Quantrell and Knecht, Misses Elizabeth Sauer, Edith Dickhoff and Ella Banker, Mrs. O. C. Utch and Mrs. Robert Rockstroff. Refreshments and music were furnished by Mrs. E. Mack and daughter.

Mrs. E. J. Sanborn, this city, and Mrs. Frank Kiser, Green Bay, spent Friday at Port Atkinson.

The Catholic Ladies' social club gave a card social Thursday night, April 12, at Langer's hall. Five hundred and Michigan were played by various groups, at which the following prizes were awarded: Miss Ellen Guttentag, first prize for women at Five Hundred, and Mrs. William Schreder consolation. Frank Guttentag, first for men and Edward Pope, consolation. At Michigan, Mrs. Joseph Reichel won first for women and Miss Marie Freudensprung, consolation. Arthur Lucas won first for men and Frank Betzold, consolation. About 100 persons participated. Lunch was served.

Albert Shannon, a junior in Jefferson high school, and Miss Marie Schweiger, a senior, will represent Jefferson in the league oratorical and declamatory contests to be held in Stoughton, April 2. They were the winners of the city oratorical and declamatory contests at the high school Friday night. Shannon's oration was "The People's Trust" and Joseph Haberman received second place with "The Fifth Foreman." Robert Fleming received third place with "The Law of the Land." Other oratorical contestants were Robert Brandt, Roger Buss and Carl Buss. Miss Schweiger's subject was "Daddy Longlegs," and was awarded first place from a field of several contestants. Miss Eva Gross received second with "Moonshine," and Miss Carmen Haberman, third with "Strongheart." Others in the contest were Helen Hagen, Helen Eakes, Arnes MacInnis and Theodore Jax. The league oratorical and declamatory contest includes Edgerton, Port Atkinson, Whitewater, Stoughton and Janesville.

The high school quartet opened the contest with two songs. Between the orations and the declamations the glee club sang.

**WISCONSIN MEN WILL SPEAK AT RUST CONTROL MEET**

Several Wisconsin men are to be the program of the fifth annual conference of government leaders and state and private collaborators in black stem rust control. The meeting will be held at Urbana, Illinois, April 15-17.

Noel P. Thompson, formerly chief of the federal barberry eradication forces in Wisconsin, will discuss the eradication of barberry with chemicals. He has been in charge of experiments for the United States department of agriculture which have developed new methods of destroying the bushes. Other Wisconsin men on the program are William A. Walker, state leader of the federal barberry eradication forces, and Carl Hanton of Superior, who discussed the work of the federal bureau for the prevention of grain rust, and organization representing the agricultural interests of thirteen states.

In the course of the three-day session Dr. F. E. Kempton, pathologist in charge of barberry eradication for the United States department of agriculture, will announce the appropriation between the states of \$425,000 for 1923 and plans will be outlined for continuing the farm-to-farm search for barberry this season.

**RUNNING WATER ON FARMS ADVOCATED**

Running water in every rural home was advocated as a means of promoting farm work, promoting health and making farm life more attractive for the family, in a rural health number of the state board of health's quarterly bulletin just issued. Discussing "Farm and Rural Sanitation," the board enumerated modern conveniences which, if used on every farm, would enable rural inhabitants to "far excel their city cousins in robustness and health."

The first motive in installing a running water system, it is pointed out, is the protection of wells on surface or underground soil pollution. The bulletin gives detailed means for providing such protection. A large percentage of farm and rural wells are unsafe, it is asserted. By attention to defective well tops and surface drainage inflow, it is estimated polluted wells could be reduced to less than 10 per cent.

Methods of tracing well pollution by the salt tests are described. Running water in the dairy is recommended as a means of maintaining good sanitary conditions for the handling of milk and in the actual production of dairy products. Safe sewage disposal is outlined.

The farmer, upon whom we depend for food, has many conditions on the farm that invite greater health risks than the urban dweller has to contend with," the article continues. "This is man's job, and therefore he must look himself in the best physical condition."

Means of maintaining farm surroundings to be of the greatest value under year-round conditions are described.

**PASS FILLED MILK BILLS**

Nine states now have laws prohibiting the sale of filled milk.

**For fifty thousand years men have trusted women and been fooled by them. See "ADAM'S RIB."**

# MUST MOVE CROPS UNSOLD IN POOL

About 210,000 Pounds Stemming Next Week.

Tobacco growers in and near Rock county are justly concerned over what disposition will be made by the Northern Wisconsin Cooperative Tobacco Pool on the crops still in the hands of the farmers. Decision will have to be made in the immediate future what will be done with this tobacco, which is generally the low or grades of sorting crops.

There is no accurate information on just how much tobacco has not been delivered, but the amount is an important item in determining the effectiveness of the pool. There are a number of growers under contract who have not received grading reports nor advance payments on a part or all of their crops. In the event sale has not been made, or is not made in the near future on these crops, two things are probable—either the tobacco will be placed in a lower grade and sold at a lower price or will be delivered to the pool, paid for, and sorted.

Something will have to be done in all fairness to the growers.

**Big Deliveries Here**

Big deliveries of stemming stock have been ordered for the Janesville headquarters. There will be about \$3,000 worth of tobacco delivered on Monday and approximately 130,000 pounds in Janesville on Wednesday and Thursday.

Some stemming stock received this week in Oshkosh and Clinton.

Growers who have not delivered and received payment are "frustrated," and in drawing near May 1 when all tobacco should be disposed of and returns made. Those who have delivered and received payment are in the most instances satisfied and expect the effect the pool has had in obtaining an increased price and better market.

**Look to Future**

Prices for stemming stock range from 10 to 11 cents for stemming stock up to 22 and even 27 cents for the good grades. The prices paid for non-pool tobacco is reported to be about the same as the quotations set by the pool, with here and there a slight increase or decrease.

"The trouble is that many growers cannot see further than their nose," was the statement issued by one of the pool officers. "Buyers go out for a purpose and advise growers on what their tobacco is worth. It is not an effort. They will spend a lot of 'holism' about what prices should be paid."

"These same buyers now seeking to undermine the pool and organized sale of tobacco, and all the opportunity in the world to so kindly advise the grower what their tobacco was worth, and pay that price, just a year ago. No one noticed them going around making high prices for the poorest stemming crop this year and yet some growers are ready to swallow, hook, line and sinker, the advice of these buyers."

For every case the non-poolers are above the pool price, there are 10 instances where they sold for less.

But do not bother about that. Get the seed in when the soil will fall off the fork. April is the last month to get of seed.

**THIS LITTLE PIG GOES TO MARKET IN WATERTOWN NOW**

Watertown has through good publicity and organized effort established itself as the center of the little pig market. Baby porkers are sold even in earload lots for tender pigs. A market is being opened for all the farmers to sell through an organization effected to seek the buyers.

**FOUR BROWN SWISS FROM INMAN HERD ON "FARMER'S TEST"**

In Inman, Riverside drive, Beloit, has four of his Brown Swiss cows on what is termed the "farmer's test." The test is official and on twice a day milking.

All of the quartet are fine Brown Swiss and are making good records for milk. One of the cows is a remarkable example of good dairy type.

An addition for calves has been built to the Inman barn, there being plenty of light and good ventilation.

**DUROC ASSOCIATION AT ANNUAL MEETING**

Members of the Rock County Duroc Jersey association held their annual meeting in the court house here Saturday afternoon. Officers were elected.

The development program of the Duroc association is for a junior pig club, support to the top litter and fat-barrow classes, an improved fair exhibit, and a county show for the state fair. If successful on the state circuit, an effort will be made to show Rock county Durocs at the National and International this year. The hog entries at the last International did not outclass the stock that could be collected in this county.

**"SHROPLANDS" PREFIX FOR BROUGHTON HERD**

"Shroplands" has been adopted as the herd prefix at the farm of A. Broughton & Sons, Albany. While this farm is mainly noted for its matchless flock of Shropshires, a good herd of Holsteins has been developed. The "Shroplands" is the prefix adopted by Arthur L. Zupke, Jefferson.

A report from Secretary L. L. Oldham of the Wisconsin Holstein association shows that there are 114,917 pure bred dairy cattle in Wisconsin, of which number 38,815 are Holsteins.

**FAVOR "GO-OUT" BILL**

The co-operative market act favored by the A. P. B. has passed the senate in Illinois with only three votes against it. The passage of the law will mean much to pools, even more than state importance, as many of the national co-operatives will be organized under the Illinois law, with headquarters in Chicago.

# THE BUSINESS OF FARMING—LIVE STOCK—DAIRY—FARM BUREAU

## 81 HEAD LISTED FOR SALE MAY 1

Rock County Holstein Association Has Prize Consignment of Stock.

Eighty-one head of registered Holsteins have been consigned for the Rock County quality consignment sale to be held in the county livestock pavilion in the Janesville fair grounds May 1. Entries for the sale were closed by the association Friday.

The classification of the sale list follows: Fifteen cows, 37 2-year-old heifers, 12 yearling heifers, 13 yearling bulls and four aged bulls.

The consignment makes up the most lot of Holsteins ever run through a sales ring in Rock county and will compare with any other county sale, for the association has insisted on good quality and proper fitting in order to advance the Rock county sales standards.

**Have Good Stock**  
Several of the cows have good A. O. R. records and a number of the heifers head to the best sires in the country. The breeders of Rock county will have opportunity to buy good herd sires at the coming sale, as there are several from dams that have records ranging from 2 to 31 pounds.

In the sale lot is a yearling bull that was in the Rock county Holstein calf club last year, and this sire in addition to winning prize for male calves at the fair here has developed into a fine type sire. One of the yearling sires is from a dam that was a winner in the Rock county Holstein show herd last year, with the grand sire on the dam's side Sir Fietertje Ormsby Mercedes 37th, and on the sire's side Lowana Sir Ollie. This entry is a real show bull.

**The Consignment**  
There are 14 head from the Spring Brook farms, Burnett, Wis., one of the leading black and white farms in the state. There is also a consignment of 12 head from the herd of William Harley Williams, North Prairie, Wis., an outstanding lot of 2-year-old heifers. The Rock county consignment are as follows: John Walther & Sons, Wisconsin state school for the blind, A. G. Russell & Son, John L. Fisher, Fisher Stock farms, Russell Clark, Craighurst farm, Donald R. Pals, John W. Goldthorne, Janesville, Theodore F. Wolf estate, Milbrand Bros., Orrie Steele, Roy Droughton, Evansville; Harry Broughton, Albany; C. S. Mulke & Son, John H. Foster, J. H. Webster, A. McGinnis, J. H. Clinton, Henry Wieland & Sons, B. L. Benedict, Beloit; W. J. Ward & Sons, Watertown; Zed Elmer, Brooklyn; John W. Jones, Milton Junction; J. H. McBride & Sons, Milton; R. E. Cortlett, Harvard, Ill.

It is certain that Rock county breeders and others will never have a better opportunity to purchase a select lot of animals than will go through the sales ring here May 1. reports J. A. Craig, president of the sales committee has seen every consignment, so the committee absolutely knows the type of animals that are coming into this sale. We are going to have an absolutely clean, healthy lot of good type cattle, for we want that kind of a sale or none at all.

**Bills for Lunch**  
J. E. Macle, Port Atkinson, and Ed-Bells, Freeport, will be auctioneers, with F. H. Everson in the box in charge of pedigrees.

At this sale the county association will not make the error committed a year ago and not have milk for sale during the lunch hour.

The Walworth county sale will be held in Elkhorn Monday, April 30, and the Green county sale in Monroe Wednesday, May 2. In all three sales 223 Holsteins will be offered.

## TO SELECT DAIRY CALVES FOR CLUBS DURING NEXT WEEK

An effort will be made next week to secure dairy calves to complete the list for the junior club work in Rock county. The date for delivery day and the club banquet will be announced by the Rock county junior club committee next week.

**BUREAU ESSAY CONTEST**  
The Farm Bureau essay contest put on in every township will close April 28. Prizes are offered in each of the 20 townships and one set of county prizes for an essay on "Why Dad Should Belong to the Farm Bureau."

## Stop Chick Losses

Poultry-keepers are finding they can raise 90 to 95 percent of their chicks by starting and growing them on

**Blatchford's CHICK MASH**

This is a carefully milled and prepared milk-substitute which contains a wider variety of essential materials than any other chick feed you have ever seen. It starts chicks right, grows them rapidly, matures them early. We have it in cartons and bags.

## THEY WON THE BLUE RIBBON

R. W. LAMB AND SON Calf Herd, First at International

**PROVEN** production and proven type together with known clean health are the three foundations behind the milkings of Rock county. These A. O. R. records to back up milk production claims and show ring awards to prove type have done wonders in promoting the sale of Short-horns in Rock county.

Through association development Rock county has been elevated to the leading milking Short-horn center in the United States.

When the committee went a round to select cattle for the Rock county milking Short-horn exhibit for the 1922 International, R. W. Lamb and Son were concerned for their entry in the calf herd class.

**Winning Calf Herd**  
The committee selected three calves from the Lamb herd that were bred by Walgrove Enterprise, a son of Imported Royal Duke. Competing against the leading herds of the west and east the Rock county trio won the blue ribbon. The three calves carried true type, thick, short legs, straight and clean-cut, and in addition came from dams with long milk records.

The old bull stood fourth in line when the English judge finished, another distinct Rock county victory. The coming show season the Rock county Short-horn breeders will again "step-out" in fast company. They are going to have a vastly improved herd for the state fairs and the Chicago fat stock show.

Every Short-horn breeder in the county is urged to start fitting animals they consider have show ring qualities in view of putting out a winning aggregation. The Short-horn herd paid its way at the state fair and cleared expenses at Chicago.

**Sell in Mexico**  
Ten head were selected in Rock county recently to be shipped to Mexico City for exhibition and sale.

Here's what J. L. Torrey, field representative of the A. S. D. A. has to say about the stock sent to Mexico: "It will please you to know that the Short-horns we purchased in Rock county attracted considerable favorable attention and were the easiest to sell. Mr. Harding states that the two calves at foot made a nice showing and all were pleased with them. Nothing for the future is assured, but there is a possibility that this introduction of milking Short-horns into Mexico means future business and don't forget that the most of the stock came from Rock county."

## SHEEP PROFITABLE ON BADGER FARMS

Wisconsin Produces Less Than a Million Sheep—Increase Needed.

Wisconsin is a good sheep state, reads a booklet issued by the Wisconsin Livestock Breeders' association. All grains and forages suitable for the highest development of sheep grow here in abundance. Badger shepherds are prosperous. Their farms are fertile and, as a rule, free from debt. Well bred, well fed, well cared for flocks of sheep have been money makers for Wisconsin farmers. No other phase of the livestock industry, considering the money invested, presents greater opportunities for satisfactory results than does sheep raising.

And still Wisconsin has less than a million sheep. Agricultural authorities say Wisconsin should have 10 times this number. Money making flocks will not tend to displace any other with them. Nothing for the future is assured, but there is a possibility that this introduction of milking Short-horns into Mexico means future business and don't forget that the most of the stock came from Rock county."

**TO NAME DELEGATES**  
J. A. Craig, president of the Rock county Holstein association, and John L. Fisher, Janesville, have been nominated as two of the Wisconsin representatives for the national Holstein meeting to be held in Cleveland during June. The suggested Wisconsin representatives are as follows: R. T. Schaefer, Appleton, P. H. Everson, Lake Mills, L. P. Oldham, Madison, H. F. Schroeder, West Bend, Carl H. Brugger, Fond du Lac, Fred B. Coldren, Juda, W. C. Leitch, Columbus, John Wustlich, Greenwood, C. L. Juve, Sheboygan Falls, Samuel Y. Hyde, La Crosse, Jerry P. Riordan, Mayville, Charles Hammko, Manitowish, A. P. Kray, Walworth, Robert A. Ryan.

**Established livestock interests on the farm or in the state. The sheep will occupy and use land that can be utilized for no other purpose.**

Use only a pure bred ram to head the flock. Get the type of the breed you choose well in mind and make your selection come up to that standard. Remember that the fleeces may cover a multitude of faults. Get a blocky, low ram, with a wide back, thick loin; deep, well filled twist and heavy leg-of-mutton. Have the fleeces dense and long but don't get away from the idea that mutton production is the aim and that wool is a by-product in the process.

When you have your ram selected don't expect him to do it all. Improper feeding, care and management will make scrubs of the best animals ever sired, pure bred or not.

Remember that the fleeces may cover a multitude of faults. Get a blocky, low ram, with a wide back, thick loin; deep, well filled twist and heavy leg-of-mutton. Have the fleeces dense and long but don't get away from the idea that mutton production is the aim and that wool is a by-product in the process.

When you have your ram selected don't expect him to do it all. Improper feeding, care and management will make scrubs of the best animals ever sired, pure bred or not.

**Established livestock interests on the farm or in the state. The sheep will occupy and use land that can be utilized for no other purpose.**

Use only a pure bred ram to head the flock. Get the type of the breed you choose well in mind and make your selection come up to that standard. Remember that the fleeces may cover a multitude of faults. Get a blocky, low ram, with a wide back, thick loin; deep, well filled twist and heavy leg-of-mutton. Have the fleeces dense and long but don't get away from the idea that mutton production is the aim and that wool is a by-product in the process.

When you have your ram selected don't expect him to do it all. Improper feeding, care and management will make scrubs of the best animals ever sired, pure bred or not.

SOME OF THE RECENT IMPORTANT EVENTS OF THE WORLD TOLD IN PICTURES ON THIS PAGE

Laddie Boy's tail wiggles a welcome as Hardings mount White House steps. It's no fun having the responsibilities of the White House on your shoulders for a month while the president is away. "Laddie Boy," President Harding's dog, will tell you that. The Alredale's joy on seeing his master on the return of the Hardings from Florida recently is evident in the above photo.

Junk heap at a British naval station where fighters are being scrapped. Great Britain is finding it necessary to economize and so ships that are being scrapped in conformance with the Washington four-power treaty are being cut into small pieces with acetylene torches and sold for junk. Formerly they were used as targets at sea and sunk.

George Henry Murray, premier and provincial secretary of Nova Scotia, is expected to be appointed Canadian ambassador to Washington. He is a member of the Liberal party in Canada, sixty-one, and a native of Nova Scotia.

Pineville residents removing wreckage of houses. Residents of central Louisiana are courageously setting about the work of digging themselves out of the mass of debris left by the recent cyclone which destroyed property estimated at \$750,000 and killed fourteen persons. The greatest damage was done at Pineville where a section of the town was destroyed. Over a thousand persons were made homeless by the cyclone.

The large brimmed hat will soon be pushing the small slaps aside. When the sun's rays become hotter mildly will want the protection as well as the flattery of the broad brimmed hat. Here are four styles in large hats seen in an advance showing of mid summer millinery. They are proof not only that the big hat will be popular but that it will be trimmed with flowers, feathers or ribbon. All are suitable to be worn with either plain or fluffy dresses.

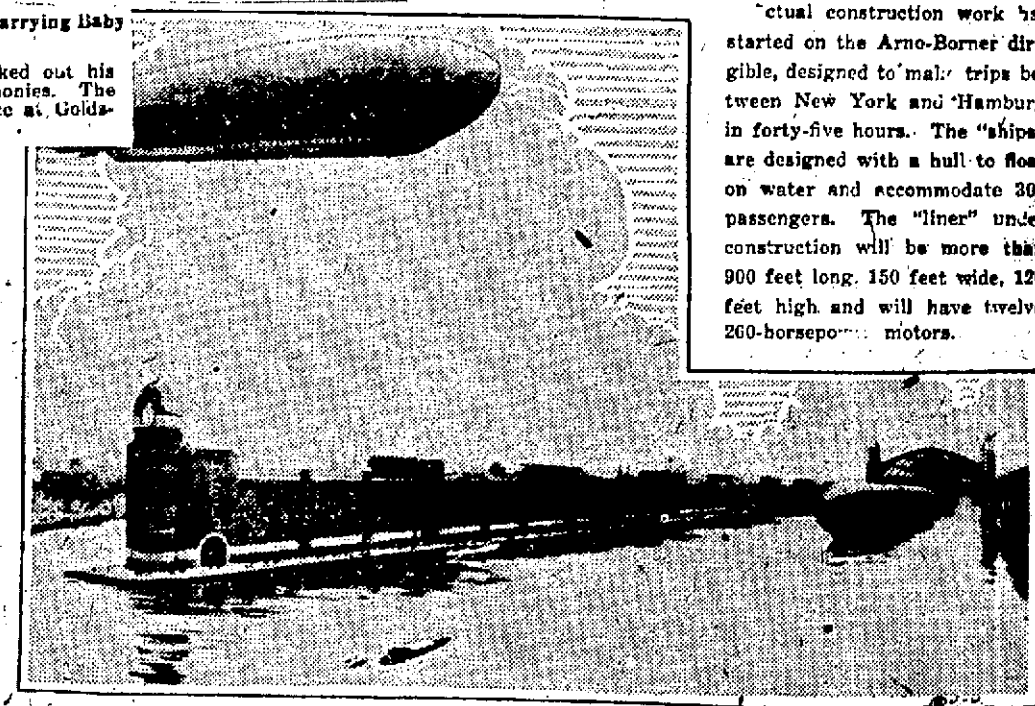

Left to right, Queen Mary, Viscountess Lascelles, King George, Viscountess Lascelles and nurse carrying Baby Lascelles. Hundreds lined the streets to watch the royal christening procession on its way to the church where the baby of Viscount Lascelles and his wife, formerly Princess Mary of Denmark, was christened. "A good time was enjoyed by all" except Baby Lascelles, who shrieked out his dislike for the ceremonies. The christening took place at Goldsbrough, Yorkshire.

John Howard Payne, author of "Home, Sweet Home," and his birthplace at Easthampton, L. I. The English speaking world on May 8 will celebrate the centenary of John Howard Payne's immortal song, "Home, Sweet Home," which made its bow to the public in the second act of an opera, "Clari, or the Maid of Milan," at the Covent Garden theater, London.

Actual construction work has started on the Arno-Borner dirigible, designed to make trips between New York and Hamburg in forty-five hours. The "ships" are designed with a hull to float on water and accommodate 300 passengers. The "liner" under construction will be more than 900 feet long, 150 feet wide, 120 feet high and will have twelve 260-horsepower motors.

German artist's design for airship dock at Hamburg with one air liner in slip and another in the air.

Miss Cathleen Vanderbilt and her fiancé, Harry Cushing. Once more the wedding bells will peal forth as another Vanderbilt marries to the altar. This time it will be Cathleen Vanderbilt, daughter of the recently remarried Reginald, and his divorced wife, now Mrs. Sydney Colford. Miss Vanderbilt is reported engaged to Harry Cushing, society favorite at New York and Newport.

Julius Barnes, president of the International Chamber of Commerce, in Rome for the annual meeting of the organization.

Augustus John, noted British portrait painter, has arrived in the United States to sit on the jury which will make awards at the international exhibit at Carnegie Art Institute.

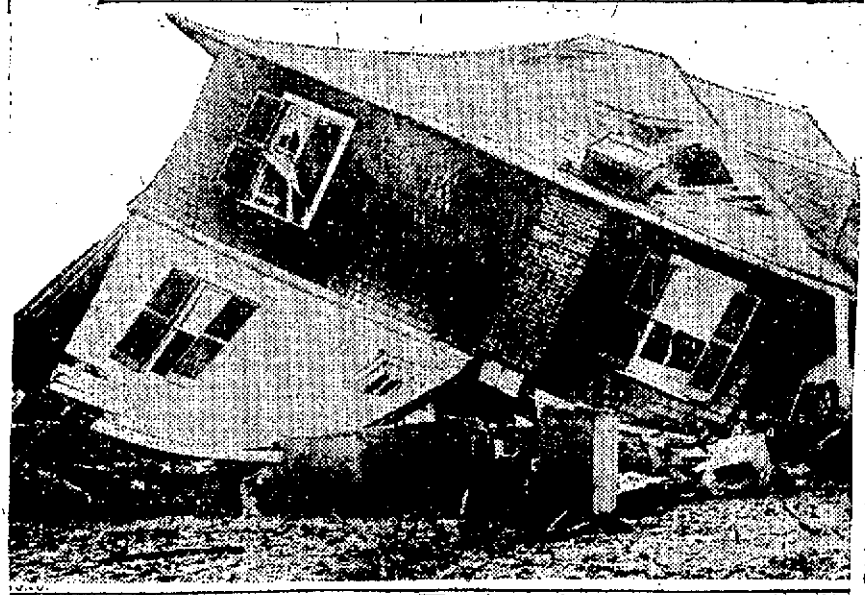

Dr. Fuad Bey, former minister of public health in the Turk Nationalist government, now a member of the Angora assembly, is in the U. S. to study educational methods.

Bill Burwell and way his injured "curve making" finger grips ball. When Pitcher Bill Burwell, now with the Indianapolis American Association team, watched "curves" remove a piece of bone from a finger of his pitching hand after the digit had been torn away by a bullet in the war he believed his pitching days were ended. But the injury has proved a boon to him. Before the finger was given a queer twist by the operation he lacked a good curve. Now the wounded digit enables him to put a terrific "hook" on the ball.

WASHINGTON SUBURBS SWEEPED BY TORNADO

Trail of the tornado in Silver Springs, Md.

Former Senator Charles F. Townsend of Michigan is slated for the vacancy on the international joint commission caused by the resignation of ex-Senator Obadiah Gardner, chairman. Townsend was one of the "lame ducks" at the last election.

Top, left, Ivez Dodds; stenographer, who, Mrs. Gertrude Wolfe charges, was kept in a love nest by her husband, Herbert Wolfe, below, while she "lived" at home. Center, their two children. Mrs. Gertrude Wolfe, Detroit, wealthy printer, whom she testified that he failed to contribute to the support of herself and her two children while maintaining his secretary, Ivez Dodd, in a cozy love nest.

The Standard of Comparison

## Low Cost—Comfortable Motoring

This Buick four cylinder, five passenger touring car affords dependable, comfortable motoring for every occasion.

Improvements in the design of both the chassis and the famous Buick Valve-in-Head engine, have contributed further to the well known Buick qualities of dependability and economy. Innovations in equipment have provided comforts in the open model that approximate those found in much more expensive closed cars.

For instance, with the Buick designed storm curtains, reinforced by the Buick weather strip, closed car coziness in bad weather has been closely approximated. A signal pocket for the driver, complete instrument board, transmission lock and many other conveniences are features every motorist appreciates.

Prices f. o. b. Buick Factory, government tax to be added. Ask about the G. M. A. C. Purchase Plan, which provides for deferred payments.

## HINTS FOR THE MOTORIST

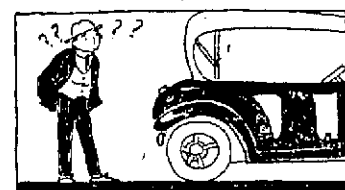

By ALBERT L. CLOUGH

Copyright, 1923, by the International Syndicate

### Cleaning Spark-Plugs

THE ONLY PART of a spark-plug which it is essential to keep clean is the surface of the porcelain, lava or mica core that insulates the center or live terminal from the shell or grounded portion. It is unnecessary to clean the sparking points themselves, despite the general belief to the contrary, although any deposits that bridge between the points should be removed. Plugs will not become dirty except in engines using over-rich mixtures or which allow loose oil to collect above the pistons. Even when these conditions exist for a short time and then cease, plugs will clean themselves automatically—the electrical discharges and the combustion disposing of soot and oil deposited on the insulation. In an engine that is run on a correct mixture and has a properly working oiling system, it should never be necessary to remove the plugs to clean them and they should run thousands of miles without attention. Plugs, the insulation of which around the live spark-point is exposed can usually be cleaned sufficiently merely by brushing off the deposit from the end of the bushing, but to do a thorough job the plug may have to be taken apart. Plugs, the end insulation of which is not exposed, usually have to be taken apart to enable the porcelain to be wiped off.

### OVERLOADED TIRES

T. E. R. asks: I got very low mileage from my tires although I take good care of them and am not a hard driver. Do you think the car could be too heavy for them? How can I find out about this?

Answer: Drive your car with its regular equipment onto a platform scales and obtain its total weight. By weighing the front and rear sections separately you can obtain very closely the weight that they respectively carry. Your tire agent can furnish you a table giving the limit of weight that your size of tire carries economically and if you find that half the weight of the front or rear end of your car is greater than the allowable weight for your size tire you may conclude that there is overloading. To secure the best mileage results it is advisable to keep the tire loads below the limit recommended by the maker. You may need over-size tires.

### POLISH FOR BODIES

E. T. H. asks: Should polish be used upon a car and if so, what kind is best?

Answer: After a car has been in service for a time, the varnish

Questions of general interest to the motorist will be answered by Mr. Clough in this column, space permitting. If an immediate answer is desired, enclose self-addressed, stamped envelope.

tends to lose its qualities to some extent and it is considered advisable to apply to it a liquid containing ingredients designed to restore these qualities. A suitable quality of furniture polish, such as is used on pianos and other finely varnished surfaces, is considered good for automobile bodies, once in a while. Before applying it, the car body should be absolutely free from dirt or scratching will result. The polish should be put on in a very light coat, with a piece of cheesecloth and wiped off and gently polished with another piece of dry cheesecloth.

### FLAT TIRES

O. B. T. asks: Is there any danger in a tire becoming punctured without the driver knowing about it?

Answer: When a front tire goes flat the car steers hard and the car tends to veer toward the side the flat tire is on. There is also a peculiar jar transmitted from the affected wheel to the steering wheel and the lamps on the affected side are likely to rattle. When a rear tire becomes flat there is an almost continuous jar especially on the affected side, more or less unusual rattling is heard and often there is a noticeable grinding from the gears and rear bearings. A deflated tire makes more power necessary and seems to make the car "drag," taking away the buoyant, springy action, which it ought to have and giving it a tendency to skid. A flat tire on a front wheel is much more dangerous than one at the rear.

## Ford THE UNIVERSAL CAR DO YOU KNOW

That there were 10,482,000 passenger cars registered in the U. S. A. on December 1, 1922.  
That the total number of car manufacturers were 129.  
That FORDS are 48% of the total.  
That 123 other manufacturers made 52 % of the total.

### ALSO

This might interest you or speed up your order for spring delivery. 50,000 cars short in March.  
There were 206,000 ordered for March delivery.  
There were 156,000 Ford cars manufactured in March.  
It means there will be a great shortage of Ford cars. Get in your order, or better still, get delivery and know you will have a Ford when we get the call of the open road. We would appreciate your order. Easy payments if desired.

## OLDFIELD TIRES

"The Most Trustworthy Tires Built"

### The Necessity of Balance to Tire Mileage

The consistency of Oldfield Cord performance gives rise to the question as to how their high uniform mileage is secured.

The principle of exact balance is largely responsible. Carcass strength, tread design and composition, sidewall and bead construction, each has received intensive study and has been exhaustively tested.

But added to this has been scientific consideration for the proper relation of these component parts.

The balanced Oldfield Cords you put on your car today bear a national reputation as the most trustworthy tires built.

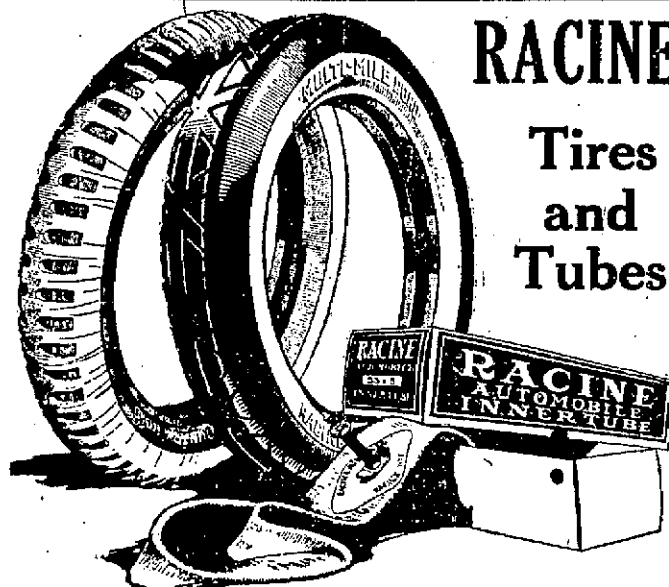

Equip your car with Oldfield Cords. Our Trade-In proposition will save you money.

### A Real Tire Bargain

Some motorists think a low price indicates a tire bargain.

They do not realize that true cost is determined, not by the purchase price, but by the final cost per mile.

The best tire bargain is a tire that gives the most mileage and satisfaction.

That tire is the Goodyear.

Proof of this statement is the fact that more people ride on Goodyear tires than on any other kind. We are anxious to show you the way to more mileage and more satisfaction with our complete line of Goodyear Tires, Tubes and Accessories.

We want to give you a REAL tire bargain.

### Expert Repairing

### By Real Mechanics

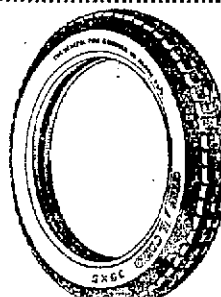

A repairing job depends more than anything else on the mechanic who does the work. He must KNOW and he must be conscientious. We have this kind of mechanics.
